

# Financial Statements for the year 2010/11

### **Explanatory Foreword**

The Council's accounts for the year 2010/11 consist of the following pages:

	Pages
<ul> <li>Introduction and Overview of the year 2010/11</li> <li>provides a summary of the Council's financial performance for the year</li> </ul>	3 - 7
The Annual Governance Statement - summarises the controls which protect the Council's stakeholders	8 - 17
Statement of Responsibilities for and approval of the Statement of Accounts - sets out who is responsible for preparing and approving the accounts	18
Independent Auditor's Report	19 - 22
The Financial Statements	
<ul> <li>The Movement in Reserves Statement</li> <li>this statement shows the movement in the year on the different reserves held by the Council analysed into useable and unusable reserves</li> </ul>	23 - 24
The Comprehensive Income and Expenditure Statement - this statement shows the cost of providing services in the year The Balance Sheet	25 26
<ul> <li>sets out the assets and liabilities of the Council on the 31 March 2011 excluding the Pension Fund (which is shown separately)</li> <li>The Cash Flow Statement</li> <li>shows the changes in cash and cash equivalents of the Council funds for 2010/11 excluding the Pension Fund and Trust Funds</li> </ul>	27
Notes to the Financial Statements - these provide further explanation of the above statements and the basis on which the accounts have been prepared	28 - 89
The Housing Revenue Account - shows in detail the income and expenditure on Council Housing	90 - 96
<ul> <li>The Collection Fund</li> <li>summarises the receipt of Council Tax, Business Rates and Government Grants, which are then used to finance services provided by the Council and the Greater London Authority</li> </ul>	97 - 101
<ul> <li>The Pension Fund Accounts</li> <li>provides for retirement benefits for past and present employees of the Council and the Admitted Bodies, with the exception of teachers who contribute to a scheme administered by the Department for Children, Schools and Families</li> </ul>	102 - 115
Glossary of Terms	116 - 121

#### Introduction and Overview of the year 2010/11

This foreword has been prepared to provide a summary of the overall financial performance and financial management of the Council and to emphasise the importance of viewing these accounts alongside the financial outturn statement, reported to Cabinet on 14 June 2011. The accounts have been prepared in line with the guidance prescribed to the Council under International Financial Reporting Standards (IFRS) to enable consistent reporting across local authorities, the wider public sector and private sector organisations.

#### Impact of International Financial Reporting Standards

This is the first year that the Council has been required to produce accounts using IFRS and the accounts now provide four core financial statements:

- The Movement in Reserves Statement; showing usable and unusable reserves
- The Comprehensive Income and Expenditure Statement; summarising all of the Council's income and expenditure
- The Balance Sheet; reflecting what the Council owns and owes
- The Cash Flow Statement; summarising where cash was generated or spent

Each core statement includes a short summary describing its purpose within the Statement of Accounts with references to additional notes; which provide further information and explanation. The main impact of the change to IFRS reporting is in the additional information provided and the layout of the accounts. The overall impact of the change on the Council's Net Assets was an increase of £133.3m as a result of reflecting Capital Grants in Unusable Reserves rather than in Long Term Liabilities and providing for the cost of accrued employee benefits at the year-end (Accumulated Absences).

Net Assets as at 31 March	Net Assets as previously reported £000's	Grants now reflected in Reserves £000's	Accumulated Absences Reserve £000's	Other Adjustments £000's	Net Assets as reported under IFRS £000's
2009	1,123,930	92,023	(1,350)	150	1,214,753
2010	1,061,745	134,572	(1,430)	140	1,195,027

The main balance sheet changes arising under **IFRS** compared to the previously reported balance sheet as defined by the Statement of Reporting Practice (**SORP**). No material changes were required to the Comprehensive Income and Expenditure Account.

	SORP		IFRS	SORP		IFRS
	31 March	Change	31 March	31 March	Change	31 March
	2009		2009	2010		2010
	£m	£m	£m	£m	£m	£m
Long Term Assets	1,443.4	0.1	1,443.5	1,613.7	0.1	1,613.8
Current Assets*	148.3	0.1	148.4	154.4	-	154.4
Current Liabilities	(117.4)	(1.4)	(118.8)	(104.8)	(1.4)	(106.2)
Long Term Liabilities	(350.4)	92.0	(258.4)	(601.6)	134.6	(467.0)
Net Assets	1,123.9	90.8	1,214.7	1,061.7	133.3	1,195.0
Total Reserves	1,123.9	90.8	1,214.7	1,061.7	133.3	1,195.0

<sup>\*</sup>Included in Current Assets is the reclassification of Investments (SORP) as Cash Equivalents (IFRS) of £71.1m in 2009 and £79.5m in 2010.

The accounting policies adopted by the Council are more fully explained in Notes 1 to 3 of the Financial Statements (pages 28 to 43) and reflect the changed requirements of reporting under IFRS.

#### **Our Financial Health**

The overall financial position of the Council during these very tough economic times has continued to improve over the last twelve months. The Council has made some difficult savings decisions but most importantly the main objective was to try to protect front line services as much as possible by reducing further wasted expenditure and by reducing central support costs. The changes we have made in this last year will ensure that the Council is able to manage the significant reductions in our income streams and ensure that we continue to be financially stable.

Following the completion of the audit of 2009/10 Statement of Accounts by our external auditors, the general fund balances increased to £8.1m. The increasing uncertainty in the Council's key income sources (following the Comprehensive Spending Review in the autumn of 2010) and the Council's continuing commitment to no increases in Council Tax in the near future resulted in a recommended level of reserves being raised to £10.0m in 2010/11. This target has been met at the end of March 2011 with the General Fund balance rising to £10.8m as a result of effective spending control.

In the challenging economic climate and continuing funding reductions, the Council is committed to maintaining stringent expenditure control measures and reducing the level of expenditure within the Council to both manage the growing financial and operational risks and to provide the right level of services to its residents. Actions taken so far have included the development of our joint venture through Elevate to generate substantial savings and reducing our staffing costs through a voluntary redundancy programme; both of which are explained more fully in the accounts.

#### The General Fund (pages 23 to 89)

At 31 March 2011, the overall General Fund Reserve balance had increased to £10.8m as a result of a net surplus of £2.8m in 2010/11 against a net budget of £154.8m; the table below shows the impact of expenditure control during the year and reflects the commitment of the Council to meet the needs of the community despite the unexpected funding reduction imposed on the Council following the General Election in May 2010. Some areas did spend slightly more than planned, specifically in safeguarding our children and in our customer services but these were more than offset by savings in the back office cost base.

Service Department net expenditure and under/(over) spend	Over/(under) spend 2009/10 £'000's	Total Net Expenditure 2010/11 £000's	Over/(under) spend 2010/11 £'000's
Adult & Community Services			
Department	(127)	69,951	(200)
Children's Services Department	(137)	61,913	484
Customer Services Department	37	28,203	399
Finance & Resources Department	(943)	11,412	(977)
General Finance	(3,182)	(19,483)	(2,482)
Total	(4,352)	151,996	(2,776)
Non operational expenditure		19,483	
Net Departmental Expenditure	See note 28	171,479	- <u>-</u>

Further information on the Council's overall expenditure is set out in Note 28 and the following charts show where the Council's income came from and how it was spent during the year:

Chart 1 - Where our money came from:

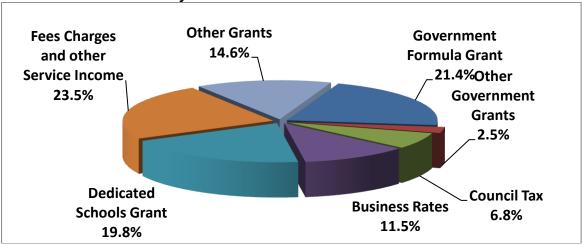

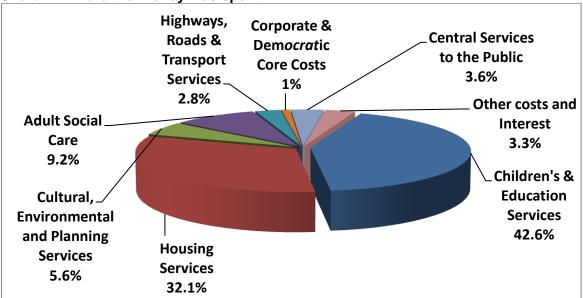

Chart 2 - Where the money was spent:

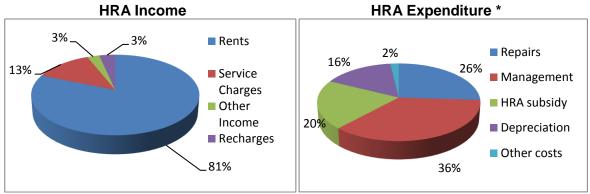

The expenditure analysis in Chart 2, above excludes the impact of the reduced value of council houses of £239.3m further information on which can be found in notes 5 and 42 and within the Housing Revenue Account.

#### The Housing Revenue Account (pages 90 to 96)

The Housing Revenue Account (HRA) is a specific account which shows how much the Council spends on providing, maintaining and managing Council flats and houses. Any money spent on looking after our Council housing is paid for by the rents that tenants pay. Under the 1989 Local Government Housing Act, the HRA is "ring fenced" from other accounts and its expenditure cannot be subsidised from the General Fund (or vice versa) although recharges for services are allowed.

The HRA results reflect the impact of the reduced value of our council houses of £239.3m and without this adjustment the HRA recorded a surplus for the year 2010/11 of £1.0m raising the working balance for the HRA to £4.4m. This increase is largely as a result of a lower than planned level of the subsidy payable to central government, partly as a result of a technical review of the amounts due, though this was partially offset by a reduced level of rent collected.

\*excludes £239.3m impairment charge

The current financial position of the HRA means that we will be able to set rent levels for 2011/12 and retain a surplus working balance however, the future of the HRA remains uncertain as a series of proposals for its reform continue to be assessed. This clearly means a solution to the financial viability of the HRA will need to be found in the near future.

#### **Capital Programme**

The Council spent £106.0m on capital projects in 2010/11 as summarised in the following table and the biggest projects set out below:

Summary of Capital Expenditure by Department	Budget 2010/11 £'000's	Actual 2010/11 £000's	Under spend £'000's
Adult & Community Services	18,977	17,513	(1,464)
Children's Services	41,384	40,912	(472)
Customer Services	43,256	36,445	(6,811)
Finance & Resources	12,026	11,227	(799)
Total	115,643	106,097	(9,546)

- Building and expanding schools £40.9m;
- Maintaining and constructing council homes £23.5m;
- Becontree Leisure Centre £11.9m.

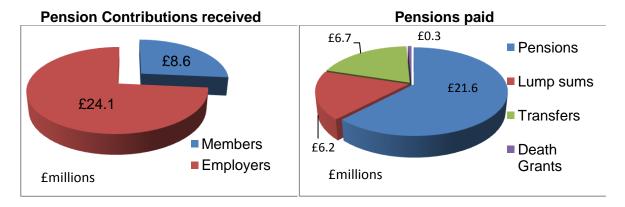

The programme was partly funded by grants received from central government and the Council's own capital receipts but a significant part was funded through borrowing. The authority will need to give consideration as to how long and to what level it is able to continue to borrow in the future.

#### **Pension Fund**

The Council prepares its Statement of Accounts to comply with the requirements of IAS 19 "Accounting for Employee Benefits". A Pension Fund Reserve is shown on the Balance Sheet, representing the net funding deficit as at the 31 March 2011. The

balance at 31 March 2011 stands at £193.4m (2010; £360.8m) following the updated actuarial information received at the year end, amounting to approximately 17% of the Council's net worth. This improvement is due to an increase in the value of funds assets together with a revised estimate of the funds liabilities following changes in the assumptions of inflation, life expectancy and past service funding in the underlying liabilities of the fund. Further details can be found in Note 45 to the Core Financial Statements.

The results of the London Borough of Barking and Dagenham Pension Fund are set out on pages 102 to 115 and show that the value of the fund has increased by £35.3m to £584.6m arising from members, £1.7m, investment income, £13.7m and the increased value of investments, £19.8m. The contributions from, and payments to, members are summarised below:

The triennial revaluation of the fund was completed on 31 March 2010 by the Scheme actuary, Hymans Robertson LLP, when they looked at the investment performance of the fund, the profile of the employees within the fund and forecasts of the financial markets amongst other factors, to set the employers contribution rates for the next three years.

#### **Looking Forward**

During February 2011, the Council's Assembly agreed a balanced budget for 2011/12 whilst freezing Council Tax increases for the third year running. To balance the budget, significant savings plans have been identified to ensure that the financial position does not deteriorate during the year. As part of the approval of the annual budget, the Council also agreed the Medium Term Financial Strategy which identified a potential funding gap for each of the next three years as a result of reducing grant levels.

The next few years will be challenging for us all as our residents feel the impact of the Government's deficit reduction programme which will place further demand on the Council's resources and services.

I will continue to focus my time to ensure that the Council maintains its services to the community it serves and to improve the way we work to deliver real value for money and to eliminate waste.

#### **Tracie Evans**

**Corporate Director of Finance and Resources 28 September 2011** 

#### **Annual Governance Statement**

#### Introduction

The Accounts and Audit Regulations (England) 2011 require the Council to be responsible for ensuring that its financial management and internal audit systems are adequate and effective. In addition, the Council is required to have a sound system of internal control which facilitates both the effective exercise of its functions and arrangements for the management of risk.

Coupled with these requirements has been the need for a wider statement which indicates the degree to which the council's governance arrangements follow the six core principles set out in 'Delivering Good Governance in Local Government' which was published by CIPFA/SOLACE in 2007. This statement explains how Barking and Dagenham Council currently complies with the Code and meets the requirements of regulation 4(2) of the Accounts and Audit Regulations 2003 as amended by the Accounts and Audit (Amendment) (England) Regulations 2006 and 2011 in relation to the publication of a statement of internal control.

The CIPFA/SOLACE principles are that the Council in its activities:

- Focuses on the purpose of the authority and on outcomes for the community and creating and implementing a vision for the local area;
- Has Members and officers working together to achieve a common purpose with clearly defined functions and roles;
- Promotes values for the authority and demonstrating the values of good governance through upholding high standards of conduct and behaviour;
- Takes informed and transparent decisions which are subject to effective scrutiny and managing risk;
- Develops the capacity and capability of Members and officers to be effective;
- Engages with local people and other stakeholders to ensure robust accountability.

This Statement should enable stakeholders to have an assurance that decisions are properly made and public money is being properly spent on citizens' behalf.

This Statement is based on evidence obtained across the council about the robustness of the Council's governance arrangements and its systems of internal control. This evidence builds upon the assurance gathering process that has been in place since the requirement to produce a Statement on Internal Control began and the comments of Directors in relation to statements provided by their Divisional Directors. This Annual Governance Statement:

- Sets out in Section 1 the scope of responsibility and the purpose of the governance framework;
- Describes in section 2 the key elements of the systems and processes that comprise the Council's governance arrangements;
- Presents in Section 3 the review of effectiveness of the Council's governance arrangements;
- Sets out in Section 4 any significant governance issues that need to be addressed.

## Section 1 Scope of Responsibility

Barking and Dagenham Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. Barking and Dagenham Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, Barking and Dagenham Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and which includes arrangements for the management of risk.

Barking and Dagenham Council's Local Code of Corporate Governance is consistent with the principles of governance set out in the introduction. A copy of the code is on the Council's website in part E of the Constitution or can be obtained from the Council's Monitoring Officer.

#### The Purpose of the Governance Framework

Barking and Dagenham Council's governance framework is established through its systems, processes, cultures and values. These are regularly reviewed. Standards Committee Members are working with officers to assess the current arrangements and to suggest any areas of improvement as part of the continuous improvement processes for the Council's governance arrangements.

The governance framework comprises the systems and processes, and culture and values, by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the Council to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of the governance framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to achievement of Barking and Dagenham Council's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at Barking and Dagenham Council for the year ended 31 March 2011 and up to the date of approval of the audited Statement of Accounts.

#### Section 2

#### The Governance Framework

The key elements of the systems and processes that comprise the Council's governance arrangements are described in more detail below:

#### **Vision and Purpose**

The Council's vision and purpose is defined in the Council Plan. More recently, the Council's vision has been summarised in the Policy House, which will be reflected in more detail in the next edition of the Council Plan.

Those elements of the Council's vision and purpose which are best delivered through local partnership working are set out in the Community Strategy. This is overseen by the Barking and Dagenham Local Strategic Partnership (**LSP**). The LSP's Public Service Board oversees the development of the community strategy and tracks the activities of the Council and its partners to ensure that the vision in the Community Strategy is being realised. It does this by overseeing delivery by the five themed sub-groups who develop strategy, monitor performance and outcomes for the Community Strategy.

The themed boards have in the past been each responsible for a number of National Indicators as stated in the Local Area Agreement (**LAA**), as well as strategic programmes of work within the Community Strategy by developing policy and strategy in response to government initiatives and local needs. These are:

- Skills Jobs and Enterprise Board;
- Clean, Green and Sustainable Board;
- Children's Trust;
- Shadow Health and Wellbeing Board;
- Community Safety Partnership.

#### **Performance Management**

The performance management framework demonstrates how effective the actions being taken are and assists in monitoring progress in the way in which the Council's strategies are translated into action plans and outcomes. It also helps to identify if any risks are materialising when indicators do not show the level of progression anticipated. The performance management framework is therefore instrumental in identifying and mapping continuous improvement of services across the Council.

The actions required to deliver service plan objectives are reflected in team and individual plans forming the basis for annual and interim appraisals.

Appraisals are scored to reflect individual performance and contribution towards the delivery of the Council's priorities. Regular team meetings and one-to-ones support the monitoring of delivery. Corporate quarterly monitoring delivery provides senior managers and Members with an overview of the Council's direction of travel. The format of reporting is currently being reviewed to reflect changes at national government level in performance reporting requirements.

There are a number of Programme Boards, each chaired by a Director and supported by programme managers, which meet monthly. The Council has established a governance

framework to support this approach which includes an escalation process associated with issues and risk management. A series of programmes and projects associated with delivery are overseen by each Board, with areas such as change management and other priorities for the Council being the subject of focus. Each Programme Board provides a highlight report to the Corporate Management Team (**CMT**).

Both the Cabinet and CMT monitor performance information on a three monthly basis. Key performance information is reported at the Performance Boards attended by Directors and chaired by the Chief Executive. Performance is considered at least monthly by Directors at directorate management team meetings and by Members on a quarterly basis at the Cabinet.

The Council's Overview and Scrutiny function provides elected Members with the forum to challenge performance; make recommendations to the Cabinet and the Assembly on policies, the budget and delivering services, instigating and managing the work of scrutiny panels; monitoring the Executive's decisions and using "Call-ins" to challenge decisions. The Council has the following scrutiny Select Committees:

- · Children Services Select Committee;
- Health and Adult Services Select Committee:
- Living and Working Select Committee;
- Public Accounts and Audit Select Committee;
- Safer and Stronger Communities Select Committee.

The scrutiny Select Committees review decisions made by the Council's Cabinet, conduct reviews into a chosen area of policy for the borough and make recommendations to full council (Assembly) at year end. Scrutiny also makes recommendations by way of challenge and improvement in relation to any reports coming before them.

To support these internal performance indicators the Council commissions and uses research to test the customer and stakeholder experience of services that the Council provides. It uses this feedback to drive the services forward to deliver what the public want and to focus resources on the public's priority areas.

External benchmarking is also used extensively to compare the services delivered by the Council with others both in the private and public sector. This is used as a tool to assess the cost effectiveness and value for money of services provided by the Council.

#### **Council Constitution**

This sets out the roles and responsibilities of officers and Members. It provides details about how decisions are made and who can make them. It also contains the rules for managing our finances and resources effectively. Under the Council's constitution, the Executive/Cabinet has the powers necessary to implement the wishes of the community and to improve the services provided. The Leader and Cabinet model provides clear accountability and effective leadership and decision making. The Assembly retains some strategic decision-making powers such as the budget framework. Officers in each Service have schemes of delegation to enable them to handle day to day matters. The Barking and Dagenham Council Cabinet drives forward the delivery of services. Where a key decision is due to be made the Council publishes details in the forward plan prior to the decision making meeting. These meetings are open to the public unless exclusion is necessary for reasons of confidentiality under Local Government Act 1972.

The Monitoring Officer ensures that the constitution is reviewed at least annually. During the year the Constitution was reviewed to ensure that it kept abreast of changes within the Council. As part of the review the Council's scheme of delegation was also comprehensively reviewed.

#### **Risk Management**

The benefits from having an effective risk management approach include better decision making, improved performance and ultimately better service delivery and outcomes. This includes more effective use of resources and the protection of reputation. Accordingly, the Council reviewed and strengthened its Risk Management arrangements in 2010/11.

The revised strategy states that the Council will maintain a culture of risk awareness across the organisation driven by a 'top down and bottom up' approach, and raise the awareness of the need for risk management by all those connected with the delivery of services.

The Public Accounts and Audit Select Committee (PAASC) is responsible for 'monitoring the effective development and operation of risk management', as defined in the Council's Scheme of Delegation. This is undertaken via a quarterly Corporate Risk Register (CRR) report from CMT.

PAASC (28<sup>th</sup> October) considered the output of a comparison exercise: how Barking and Dagenham Council's register looked against other "good practice" councils' CRRs. The key headline messages were:

- The CRR contained the majority of the big risks identified by comparison cohort;
- The description and rating varied from local authority to local authority, reflecting the local conditions, which is entirely appropriate.

CMT provides strategic leadership of corporate risk management, setting the tone for the whole risk management framework. The first CRR was produced in 2010.

The Corporate Risk Board (**CRB**) at Divisional Director level has been established. Its Terms of Reference are to champion and embed risk management across the Council. The CRB oversees the CRR on behalf of CMT. This is discharged quarterly, via both the review of the key risks and progress in their mitigation via action plans. The CRR formed a key driver in the "golden-thread" of the annual planning cycle - informing for the first time Directorate Risk and Business Plans, the Annual Governance Statement and Audit Programme.

A CMT member is designated the risk management champion, signalling the importance of risk management, underpinning good governance.

As part of the business planning process, each Directorate must produce a plan that outlines both the major impacts and risks associated with their proposals. These should contain sufficient information to enable decisions to be made on areas for investment. Each divisional business plan must provide an assessment of the risks or a reference to the divisional risk register associated with each of the set divisional objectives (including the corporate risks as appropriate).

Directorate Management Teams (**DMTs**) monitor and oversee their service risks and individually and collectively act as an escalation channel up to CRB and CMT and below.

Risks are assessed in terms of likelihood and impact, with ratings from 1 to 4 being used to measure both values; this methodology is consistently used across the Council registers.

The Governance Audit undertaken during 2010/11 gave "Substantial Assurance" and highlighted the Council's strengthened risk management arrangements.

Additionally, there has been an audit of the risk management arrangements undertaken during the last quarter of 2010/11, this will be finalised in 2011/12 and will inform future arrangements.

#### **Codes of Conduct**

The Council has a code of conduct for officers supported by a requirement to make declarations of interest and to declare gifts and hospitality. Interests must be declared by officers above a certain grade and those in certain decision making and procurement positions. Officers are generally required to decline gifts and hospitality to ensure that officers are not inappropriately influenced. These codes and processes are made available to staff at their induction, they are on the intranet and online training is available to ensure every staff member understands their responsibilities. The Council's Standards Committee oversees adherence to the Code of Conduct for Members, handles complaints under the same and also monitors compliance with employee related Codes of Conduct, such as the Officer Code of Conduct and whistle blowing policy. The Standards Committee also reviews policies and protocols relating to Members, officers and compliance by members of the public on an annual basis.

The Localism Bill proposed the abolition of the mandatory standards regime in local authorities and the Council along with other authorities will retain a choice and thus need to decide whether to retain a local Code of Conduct and a regime fulfilling the work currently done by the Standards Committee.

#### **Rules and Regulations**

The Council's rules and regulations form part of the Constitution. There is a scheme of delegation for officers. These documents are published on the Council's website. They state who is authorised to make decisions in particular areas. Alongside this the Council has financial regulations which provide details of officers' responsibilities for the Council's control environment relating to income, expenditure, internal control, risk management and partnerships. To support officers when they are making purchases the Council has developed a code of procurement practice. The scheme of delegation and financial regulations are kept under review throughout the year. There is also an ongoing review of the procurement code of practice to enable the document to be more user friendly in future.

Various mechanisms are in place to ensure compliance with the constitution. The scrutiny Select Committees regularly review matters coming before them within their remits. The committees agree their work program at the beginning of each year. Scrutiny Select Committees have power to call in decisions of the Executive/Cabinet and to call officers to appear before them to answer questions.

The Council also has the following statutory officers: Chief Executive (Head of Paid Service), Corporate Director of Finance and Resources (as Section 151 Officer) and Divisional Director of Legal and Democratic Services (Monitoring Officer), each of whom has the power to refer matters to Assembly if a breach of any regulation has occurred or anticipated. The Council must also appoint a Director of Education role and a Director of

Adult Social Services which are currently filled by the Corporate Director of Children's Services and Corporate Director of Adult and Community Services respectively.

#### **Whistle-blowing and Complaints Process**

The Council has a robust whistle blowing and complaints procedure. The audit and risk team actively promote awareness of the policy within and outside the Council. Complaints under either procedure are handled in confidence and according to a strict time table and procedure. Where complaints are upheld as appropriate, action follows. The Standards Committee reviews complaints made, patterns and outcomes on an annual basis.

#### **Training and Development**

Barking and Dagenham Council has a Member Development Programme, which is based around the key priorities identified by Members. The programme offers Personal Development Plans for those Members who want to develop a planned approach to their development. Formal monthly sessions are arranged for all Members as well as one to one coaching if requested. There is a mix of skills based and knowledge based sessions. The programme includes access to "Modern Councillor" a new service for elected Members to develop their skills through e-learning. In addition, all Members are offered the opportunity to attend the Local Government Improvement and Development (LGID) Leadership Academy which is a programme designed specifically with Councillors in mind.

Members have a dedicated full time Member Development Officer and a development programme to keep them up to date with changes and to support training needs. Training is supplemented by information through briefings, conferences and ward bulletins. All Select Committees have training as part of their agendas and agree specific training in order to remain current. Training is also provided for Members of all quasi judicial boards.

Finally, the London Member Development Charter was achieved by Barking and Dagenham Council in February 2009.

#### **Communication and Engagement**

The Council publishes numerous documents on its website as well as providing a fortnightly community newspaper launched at the end of May 2009 to engage with and inform members of the public. Consultation exercises are publicised and enabled via the website, as well as through more traditional routes.

#### **Partnerships**

The Council is involved in a range of partnerships for different services. Corporately a significant partnership for the Council is the Barking and Dagenham Local Strategic Partnership. This is governed by its own constitution. Members are also subject to a code of conduct and make declarations of interest at meetings.

The Council also entered into a formal partnering arrangement with Elevate in 2010 to run a number of key council services after a full European Union procurement process. The Council also has important partnership arrangements with the local primary care trusts. These cover a range services and are aimed at delivering a seamless service to the public. There are also partnership arrangements with the Police, Probation and Youth Justice Services to help to meet the targets for reducing crime and making Barking and Dagenham a safer and stronger community.

## Section 3 Review of Effectiveness

The Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. "Assurance" on the review of effectiveness is informed by a range of evidence, both internal and external, including the work of relevant Corporate and Divisional Directors within the Council, that have responsibility for the development and maintenance of the governance environment, the Divisional Director of Assurance and Risk's annual report, and also by comments made by the external auditors and other review agencies and inspectorates. For 2010/11 Divisional Directors were invited to complete standard questionnaires addressing governance issues in their areas. The results were then communicated to the relevant Corporate Director who was invited to review them and complete a statement in relation to governance in their areas.

The review of the effectiveness of the system of internal control is informed by the work of the Internal Auditors and the Corporate and Divisional Directors within the Council who have responsibility for the development and maintenance of the internal control environment, and also by comments made by the external auditors and other review agencies and inspectorates.

Annually, the Divisional Director of Assurance and Risk is required to give an opinion on the Council's internal control framework based upon the work carried out during the year including testing the key controls in the Council's major financial systems.

The Divisional Director of Assurance and Risk draws upon a wide range of assurance sources to help inform this opinion and the programme of audit and corporate anti-fraud work, including identified risks.

During 2010/11, a consolidated Quarterly Internal Audit Composite Report was introduced, that goes quarterly to PAASC. This has assisted PAASC in undertaking its governance and risk scrutiny function. The reports covered a broad area of the Council's work including:

- Summaries of Internal Audit work undertaken;
- Summaries of Corporate Fraud Investigations and whistle-blowing work undertaken;
- Current and future key issues;
- Value for money of the Internal Audit service;
- Progress of audit recommendations:
- Reasons for agreed slippage of high risk recommendations;
- Outcomes from tenancy audit;
- Outcomes from housing benefit investigations;
- Refresh of key Anti-Fraud and Audit Policies and Strategies; and,
- The Divisional Director of Assurance and Risk annual opinion.

The outcomes from PAASC are reported annually to the Assembly.

The Divisional Director of Assurance and Risk's annual report is provided to PAASC each June. Based on the work undertaken during the previous year and the implementation by management of the recommendations made, internal audit were able to provide reasonable assurance that the systems of internal control within the council were operating adequately and effectively. The opinion of the Divisional Director of

Assurance and Risk is therefore that overall the control environment is currently adequate.

The Internal Audit service was rated with "full assurance" by an external peer review, which was undertaken in 2010/11.

The Council received a report via PAASC from the Audit Commission's Head of Governance and Counter Fraud. This report was a pilot, tailored briefing note positioning the Barking and Dagenham Council fraud survey results against those in the recent 'Protecting the Public Purse' report. This enabled PAASC to request, and subsequently receive, a self assessment against best practice checklists both from the national and locally tailored 'Protecting the Public Purse' reports, highlighting how robust the council's fraud defences are, supporting transparent governance.

#### **Certification of Claims and Returns – Annual Report**

Funding from Government grant-paying departments is an important income stream for the Council. In 2010/11 the Audit Commission will certify 10 claims with a total auditable value of £224million. These claims are currently in the process of being certified.

#### Section 4

#### **Significant Governance Issues**

In the light of evidence reviewed in relation to 2010/11 we can confirm that the Council's governance arrangements are robust, that the Council's values, ethical standards, laws and regulations are being complied with, that financial statements and other published performance information are accurate & reliable and that human, financial, environmental and other resources are managed efficiently and effectively. At the same time we have identified the following areas as in need of strengthening going forward to provide even greater assurance:

**Risk Management** At a corporate level, Risk Management arrangements are operating well, with mechanisms in place to review risks and associated action plans periodically. However, at directorate and service level, more work is required to ensure the transparency of management of risk;

**Compliance (Corporate Risk 6)** There is a general requirement to re-enforce the need for compliance with policies and procedures across a range of processes;

**Budgetary Control/Savings (Corporate Risk 19)** Whilst mechanisms for budgetary monitoring are in place and operating well, it is recognised that the significant spending reductions required, involving re-structuring and streamlining of management layers, must be effectively managed to maintain good governance;

**Project/Contract Management (Corporate Risk 5)** Management of major contracts and projects is continuing to evolve to reflect changing delivery models and work is continuing to maintain and improve delivery of the stated objectives on time and within budget;

**Contract Monitoring (Corporate Risk 5)** Client management arrangements are continuing to evolve to reflect changing delivery models and work is continuing to ensure ongoing delivery of high performing services within financial constraints;

Data Protection (Corporate Risk 10) Data protection awareness across the Council has been identified as an issue through an audit process and specific recommendations arising from that review are still to be implemented;

Business Continuity (Corporate Risk 13) It is important that managers regularly and systematically test and update the contingency plans which have been put in place;

Partnership Governance Work is progressing to implement a framework to ensure all partnership arrangements are managed consistently within a policy environment and have appropriate arrangements in place for management of risk.

In accordance with the Council's Risk Management Strategy and processes, action plans are in place, and periodically reviewed and updated, to address these areas. Progress is reported to and scrutinised by CMT and Members of PAASC on a quarterly basis.

In addition, the Council's Internal Audit section concluded a report into the Council's governance arrangements in February 2011 and gave substantial assurance to management that controls in place over the Council's Corporate Governance Framework were in place and working effectively

#### Opinion of the Chief Executive and Leader of the Council

28 September 2011

We have been advised on the implications of the result of the review of the effectiveness of the governance framework by the Public Accounts and Audit Select Committee, and a plan to address weaknesses and ensure continuous improvement of the system is in place.

We look forward to working more closely with all organisations in the community, public.

private and voluntary sectors to strengthen local communities and increase prosperity.

#### STATEMENT OF RESPONSIBILITIES

#### The Council's Responsibilities

The Council is required to:

- make arrangements for the proper administration of its financial affairs and to secure
  that one of its officers has the responsibility for the administration of those affairs. In
  this authority, that officer is the chief financial officer;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the Statement of Accounts.

#### The Chief Financial Officer's Responsibilities

The chief financial officer is responsible for the preparation of the authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code). In preparing this Statement of Accounts, the chief financial officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code.

The chief financial officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

#### Statement of the Chief Financial Officer

I certify that the Council's Statement of Accounts represents a true and fair view of the financial position of the Council at the accounting date and of its income and expenditure for the year ended 31 March 2011.

#### Signed:

Tracie Evans
Corporate Director of Finance and Resources
(Section 151 Officer)

30 June 2011

# Independent Auditor's Report to the Members of the London Borough of Barking and Dagenham

#### **Opinion on the Authority accounting statements**

I have audited the accounting statements of London Borough of Barking and Dagenham for the year ended 31 March 2011 under the Audit Commission Act 1998. The accounting statements comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Housing Revenue Account and Collection Fund and the related notes. These accounting statements have been prepared under the accounting policies set out in the Statement of Accounting Policies.

This report is made solely to the members of London Borough of Barking and Dagenham in accordance with Part II of the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010.

## Respective responsibilities of the Corporate Director of Finance and Resources and auditor

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, the Corporate Director of Finance and Resources is responsible for the preparation of the Authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom. My responsibility is to audit the accounting statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require me to comply with the Auditing Practice's Board's Ethical Standards for Auditors.

#### Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the accounting statements sufficient to give reasonable assurance that the accounting statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Authority's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Authority; and the overall presentation of the accounting statements. I read all the information in the explanatory foreword to identify material inconsistencies with the audited financial statements. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

#### **Opinion on accounting statements**

In my opinion the accounting statements:

- give a true and fair view of the state of London Borough of Barking and Dagenham's affairs as at 31 March 2011 and of its income and expenditure for the year then ended: and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom.

#### **Opinion on other matters**

In my opinion, the information given in the explanatory foreword for the financial year for which the accounting statements are prepared is consistent with the accounting statements.

#### Matters on which I report by exception

I have nothing to report in respect of the governance statement on which I report to you if, in my opinion the governance statement does reflect compliance with 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007.

#### Opinion on the pension fund accounting statements

I have audited the pension fund accounting statements for the year ended 31 March 2011 under the Audit Commission Act 1998. The pension fund accounting statements comprise the Fund Account, the Net Assets Statement and the related notes. These accounting statements have been prepared under the accounting policies set out in the Statement of Accounting Policies.

This report is made solely to the members of London Borough of Barking and Dagenham in accordance with Part II of the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010.

## Respective responsibilities of the Corporate Director of Finance and Resources and auditor

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, the Corporate Director of Finance and Resources is responsible for the preparation of the pension fund's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom. My responsibility is to audit the accounting statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require me to comply with the Auditing Practice's Board's Ethical Standards for Auditors.

#### Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the accounting statements sufficient to give reasonable assurance that the accounting statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the fund's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the fund; and the overall presentation of the accounting statements. I read all the information in the explanatory foreword to identify material inconsistencies with the audited accounting statements. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

#### **Opinion on accounting statements**

In my opinion the pension fund's accounting statements:

- give a true and fair view of the financial transactions of the pension fund during the year ended 31 March 2011 and the amount and disposition of the fund's assets and liabilities as at 31 March 2011, other than liabilities to pay pensions and other benefits after the end of the scheme year; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom.

#### **Opinion on other matters**

In my opinion, the information given in the explanatory foreword for the financial year for which the accounting statements are prepared is consistent with the accounting statements.

Conclusion on Authority's arrangements for securing economy, efficiency and effectiveness in the use of resources

#### **Authority's responsibilities**

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

#### Auditor's responsibilities

I am required under Section 5 of the Audit Commission Act 1998 to satisfy myself that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires me to report to you my conclusion relating to proper arrangements, having regard to relevant criteria specified by the Audit Commission.

I report if significant matters have come to my attention which prevent me from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. I am not required to consider, nor have I considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

#### Basis of conclusion

I have undertaken my audit in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria, published by the Audit Commission in October 2010, as to whether the Authority has proper arrangements for:

- · securing financial resilience; and
- challenging how it secures economy, efficiency and effectiveness.

The Audit Commission has determined these two criteria as those necessary for me to consider under the Code of Audit Practice in satisfying myself whether the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2011.

I planned my work in accordance with the Code of Audit Practice. Based on my risk assessment, I undertook such work as I considered necessary to form a view on whether, in all significant respects, the Authority had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

#### Conclusion

On the basis of my work, having regard to the guidance on the specified criteria published by the Audit Commission in October 2010, I am satisfied that, in all significant respects, London Borough of Barking and Dagenham put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ending 31 March 2011.

#### Delay in certification of completion of the audit

I am required to give an opinion on the financial statements of the pension fund included in the Pension Fund Annual Report of the London Borough of Barking and Dagenham. The Local Government Pension Scheme (Administration) Regulations 2008 require authorities to publish the Pension Fund Annual Report by 1 December 2011.

As the authority has not yet prepared the Annual Report I have not yet been able to read the other information to be published with those financial statements and I have not issued my report on those financial statements. Until I have done so, I am unable to certify that I have completed the audit of the accounts in accordance with the requirements of the Audit Commission Act 1998 and the Code of Audit Practice issued by the Audit Commission.

Jon Hayes

**District Auditor** 

Audit Commission, 1st Floor, Millbank Tower, London, SW1P 4HQ

September 2011

## **Core Financial Statements Movement in Reserves Statement**

This statement shows the movement in the year on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and unusable reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting and council dwellings rent setting purposes. The Net Increase/(Decrease) before Transfers to Earmarked Reserves line shows the statutory General Fund Balance and Housing Revenue Account Balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

	General Fund Balance	Earmarked General Fund Reserves	Housing Revenue Account	Earmarked HRA Reserves	Capital Receipts Reserve	Capital Grants Unapplied	Major Repairs Reserve	Total Usable Reserves	Unusable Reserves	Total Authority Reserves

<sup>\*</sup>as per the Comprehensive Income and Expenditure Statement

#### **Comprehensive Income and Expenditure Statement**

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

#### **Balance Sheet**

The Balance sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council and the net assets (assets less liabilities) are matched by the Council's reserves. Reserves are reported in two categories usable reserves (note 23) and unusable reserves (note 24). Usable reserves are reserves which can be used to provide services, subject to maintaining a prudent level of reserves. Unusable reserves cannot be used to provide services and reflect accounting transactions (such as those arising from asset revaluations) and which could only be used to fund services when the revaluation gain is realised through the sale of the assets.

1,214,753	1,195,027	Total Reserves		1,137,360

#### **Cash Flow Statement**

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the authority are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

2009/10 £000's		Note	2010/11 £000's
(14,341)	Net Surplus or (Deficit) on the Provision of Services		(124,171)

79,508	Cash and Cash Equivalents as per Balance Sheet	19 _	65,539

#### **Notes to the Accounts**

#### 1. Accounting Policies

#### 1.1. General Principles

The Statement of Accounts summarises the Council's transactions for the 2010/11 financial year and its financial position at the year end of 31 March 2011. The Council is required to prepare its annual Statement of Accounts by the Accounts and Audit Regulations 2011 which require the accounts to be prepared in accordance with proper accounting practices. These practices comprise the Code of Practice on Local Council Accounting in the United Kingdom 2010/11 and the Best Value Accounting Code of Practice (BVACOP) 2010/11 supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

#### 1.2. Accruals of Income and Expenditure

The activities of the Council are accounted for in the year in which they take place not simply when cash payments are made or received. Specifically:

- Revenue for the sale of goods is recognised when the rewards and risks of ownership are transferred to the purchaser and it is probable that the economic benefit or service associated with the transaction will flow to the Council
- Revenue from the provision of services is recognised when the percentage of completion of the transaction can be reliably measured and it is probable that economic benefits or service associated with the transaction will flow to the Council
- Supplies are recorded as expenditure when they are used, where there is a delay between the date supplies are received and the time they are used, they are held as inventories on the Balance Sheet
- Expenses in relation to services received (including those provided by employees) are recorded as expenditure when the service is received rather when payment is made
- Interest receivable from investments or payable on borrowings is accounted for as income or expenditure on the basis of the effective interest rate for the relevant financial instrument, rather than the cash flows determined by the contract
- Where revenue or expenditure has been recognised but cash has not been received or paid a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is reduced and a charge made to revenue for the income which might not be collected
- The above policies are applied in an appropriate manner to avoid material misstatement in the financial statements. For the financial year 2010/11 a de minimis of £10,000 was applied to both debtors and creditors.

#### 1.3. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than twenty four hours. Cash equivalents are investments that mature within 3 months from the date of acquisition

and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the cash flow statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

#### 1.4. Exceptional Items

When items of income or expenditure are material, their nature and value is disclosed separately on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts.

## 1.5. <u>Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors</u>

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for in the current year (and future years affected by the change) and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless otherwise stated) by adjusting opening balances and comparative amounts for the prior period as if the policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

#### 1.6. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets

- Depreciation attributable to assets used by the service
- Revaluation and impairment losses on assets used by the service where there
  are no accumulated gains in the Revaluation Reserve against which the losses
  can be offset
- Amortisation of intangible fixed assets attributable to the service

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. It is however required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to either the amount calculated on a prudent basis determined by the Council in accordance with statutory guidance. Depreciation, revaluation and impairment losses or amortisations are therefore replaced by the contribution to the General Fund Balance (Minimum Revenue Provision – MRP) by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement equal to the difference between the two.

#### 1.7. Employee benefits

#### **Benefits Payable During Employment**

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and

paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

#### **Termination Benefits**

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the relevant Cost of Service line in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

#### **Post Employment Benefits**

Employees of the Council are members of two separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DofE).
- The Local Government Pensions Scheme, administered by London Borough of Barking and Dagenham Pension Fund.

Both schemes provided defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council. However, the arrangements for the Teachers' Pension Scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The scheme is therefore accounted for as if it was a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The Children's and Education Services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions in the year.

#### The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme:

• The liabilities of the London Borough of Barking and Dagenham pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees,

based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees

- Liabilities are discounted to their value at current prices, using a discount rate of 5.5% based on the indicative rate of return on high quality corporate bond (rated AA or above)
- The assets of London Borough of Barking and Dagenham pension fund attributable to the Council are included in the Balance Sheet at their fair value:
  - quoted securities: current bid price;
  - unquoted securities: professional estimate;
  - unitised securities: current bid price;
  - property: market value.
- The change in the net pensions liability is analysed into seven components:
  - current service cost: the increase in liabilities as a result of years of service earned this year allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked;
  - past service cost: the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years charged to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs;
  - interest cost: the expected increase in the present value of liabilities during the year as they move one year closer to being charged to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
  - expected return on assets: the annual investment return on the fund assets attributable to the Council, based on an average of the expected long-term return credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
  - gains or losses on settlements and curtailments: the result of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees received or charged to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement;
  - actuarial gains and losses: changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions charged to the Pensions Reserve;
  - contributions paid to the London Borough of Barking and Dagenham pension fund: cash paid as employer's contributions to the pension fund in settlement of liabilities not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

#### **Discretionary Benefits**

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

#### 1.8. Events after the Balance Sheet Date

Events after the Balance Sheet date are those events both favourable and unfavourable that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. There are two types of events, adjusting and non-adjusting:

- Where the event is supported by evidence of conditions that existed at the end of the current reporting period the Statement of Accounts is adjusted to reflect the impact of the event;
- Where the event is supported by evidence of conditions that arose after the current reporting period the Statement of Accounts is not adjusted but where the impact of the event is material the nature of the event is disclosed in a separate note setting out the nature of the event and the estimated financial impact.

#### 1.9. Financial Instruments

#### **Financial Liabilities**

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges set out under Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement, for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective rate of interest is the rate that exactly discounts the estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

The Council's borrowings are stated in the balance sheet at the outstanding principal repayable, including accrued interest, and the amount charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the relevant loan agreement.

Gains and losses on the repurchase or early settlement of borrowings are credited and debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement in the year of repurchase or settlement.

#### **Financial Assets**

Financial assets are classified into two types:

- Loans and receivables assets that have fixed or determinable payments but are not quoted in and active market;
- Available for sale assets assets that have a quoted market price and/or do not have fixed or determinable payments.

#### Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the assets multiplied by the effective rate of interest for the instrument. For loans made by the Council the amount presented in the Balance Sheet is the outstanding principal receivable, including accrued interest, and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year according to the relevant loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge reflected in Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement or to the relevant service. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains or losses that arise on the de-recognition of an asset are credited or debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement.

#### **Available for Sale Assets**

Available for sale assets are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement for interest receivable are based on amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council.

Assets are maintained in the Balance Sheet at fair value based on the following principles:

- Instruments with quoted market prices: the market price;
- Other instruments with fixed determinable payments: discounted cash flow analysis:
- Equity shares with no quoted market prices: independent analysis of company valuations.

Changes in fair value are balanced by an entry in the Available for Sale reserve and the gain/loss recognised in the Surplus or deficit in Revaluation of Available for Sale Financial Assets. Where impairment losses are incurred, these are debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available for Sale Reserve.

#### 1.10. Government Grants and contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments; and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as Liabilities. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

#### **Area Based Grant** (ABG)

This is a general grant allocated by central government directly to local authorities as additional revenue funding. ABG is non-ring fenced and is credited to Taxation and Non-Specific Grant Income in the Comprehensive Income and Expenditure Statement.

#### 1.11. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised). Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

#### 1.12. Interest in Companies and Other Entities

The Council entered into a joint venture in December 2010 but at the year-end did not have a material interest in the jointly controlled entity and has not prepared group accounts. In future the scale of the interest in the joint venture may be sufficiently material to require Group Accounts to be prepared.

In the Council's own single-entity accounts, the interests in companies and other entities are recorded as financial assets at cost, less any provision for losses.

#### 1.13. Inventories

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using consistent costing calculations.

#### 1.14. Investment Properties

Investment properties are those that are used solely to earn rentals (to generate a minimum yield of 6% in accordance with the Council's standing orders) and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's-length. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in

Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

#### 1.15. <u>Jointly Controlled Operations and Jointly Controlled Assets</u>

Jointly controlled operations are activities undertaken by the Council in conjunction with other parties that involve the use of the assets and resources of the parties rather than the establishment of a separate entity. The Council recognises on its Balance Sheet any assets that it controls and liabilities that it incurs and debits and credits the Comprehensive Income and Expenditure Statement with the expenditure incurred together with any share of income it earns from the activity of the operation.

#### 1.16. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

#### The Council as Lessee

#### **Finance Leases**

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred. Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment (applied to write down the lease liability); and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

### **Operating Leases**

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

#### The Council as Lessor

### **Finance Leases**

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet. Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property applied to write down the lease debtor (together with any premiums received); and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

### **Operating Leases**

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease.

### 1.17. Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA **Best** 

**Value Accounting Code of Practice 2010/11 (BVACOP).** The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core: costs relating to the Council's status as a multifunctional, democratic organisation;
- Non Distributed Costs: the cost of discretionary benefits awarded to employees retiring early and impairment losses chargeable on Assets Held for Sale.

These two cost categories are defined in BVACOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

### 1.18. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

### Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Any expenditure which does not add value to the asset is written off in accordance with the accounting policy on impairment as set out below. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

#### Measurement

Assets are initially measured at cost, comprising:

- the purchase price;
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management;
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Council does not capitalise borrowing costs incurred whilst assets are under construction. The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account.

Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement. Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction depreciated historical cost:
- dwellings fair value, determined using the basis of existing use value for social housing;
- all other assets fair value, determined as the amount that would be paid for the asset in its existing use (existing use value).

Assets included in the Balance Sheet at fair value are revalued on a five year rolling programme to ensure that their carrying amount is not materially different from their fair value at the year-end. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

### **Impairment**

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

### **Depreciation**

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings straight-line allocation over the useful life of the property as estimated by the valuer;
- vehicles, plant, furniture and equipment straight-line allocation over the useful life of the asset between 5 and 20 years;
- infrastructure straight-line allocation over 20 years;
- No depreciation is charged in the year of purchase or construction of an asset and assets demolished in the year will have a full year's depreciation charge.

Where an item of Property, Plant and Equipment has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately. For 2010/11 this policy applied to additions and revaluations only. As the Council charges depreciation in the year following addition or revaluation there is no impact in 2010/11. The policy will be fully applied to cover all components in 2011/12.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

### **Disposals and Non-current Assets Held for Sale**

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously losses recognised in the Surplus or Deficit on Provision of Services.

Depreciation is not charged on Assets Held for Sale. If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell. Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains

accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

### 1.19. Private Finance Initiative (PFI) and Similar Contracts

PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Council is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Council. The amounts payable to the PFI operators each year are analysed into five elements:

- fair value of the services received during the year : debited to the relevant service in the Comprehensive Income and Expenditure Statement;
- finance cost: an interest charge of 10.35% on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
- contingent rent: increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement;
- payment towards liability: applied to write down the Balance Sheet liability towards the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease):
- life-cycle replacement costs: proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out.

### 1.20. Provisions, Contingent Liabilities and Contingent Assets

#### **Provisions**

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

### **Contingent Liabilities**

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

### **Contingent Assets**

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

### 1.21. Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council; these reserves are explained in the relevant policies.

### 1.22. Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

### 1.23. Value Added Tax (VAT)

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

## 2. Accounting Standards that have been issued but have not yet been Adopted

The Council has not adopted FRS 30 in respect of accounting for **Heritage Assets** for the year ended 31 March 2011. Heritage Assets will be recognised as a separate class of assets for the first time in the 2011/12 financial statements. At 31 March 2011 the Council did not have sufficient management information available to make reliable estimates of the specific value of its Heritage Assets.

### 3. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The key critical judgement made in the Statement of Accounts is:

There is a high degree of uncertainty about future levels of funding for local government. However, the Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to close facilities and reduce levels of service provision.

# 4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31 March 2011 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

#### Property, Plant and Equipment Effect if actual results differ from assumptions Assets are depreciated over useful lives If the useful life of assets is reduced, that are dependent on assumptions about depreciation increases and the carrying the level of repairs and maintenance that amount of the assets falls. will be incurred in relation to individual is estimated that the annual assets. The current economic climate depreciation charge for buildings would increase by £600k for every year that makes it uncertain that the Authority will be useful lives had to be reduced. Should able to sustain its current spending on repairs and maintenance, bringing into this adjustment arise it would not impact doubt the useful lives assigned to assets Council Tax charges. **Pensions Liability** Estimation of the net liability to pay The effects on the net pension liability of pensions depends on a number of complex changes in individual assumptions can be judgements relating to the discount rate measured. For instance, a 0.5% increase in the discount rate assumption would used, the rate at which salaries are result in a decrease in the pension liability projected to increase. changes in retirement ages, mortality rates and of £57.7m. expected returns on pension fund assets. A However, the assumptions interact in firm of consulting actuaries is engaged to complex ways. During 2010/11, the provide the Council with expert advice Council's actuaries advised that the net about the assumptions to be applied. pensions liability had reduced by £167.4m as a result of estimates being changed (attributable to updating of assumptions, specifically the use of the Consumer Price Index) Arrears At 31 March 2011, the Council had a In order to mitigate the uncertainty in significant balance of debtors against prevailing debt recovery rates a general which appropriate provisions had been contingency amounting to £0.8m has made. However due to the uncertain been created to manage the risk economic landscape and changes to the associated with the non collection of debt.

The list does not include assets and liabilities that are carried at fair value based on a recently observed market price.

### 5. Material Items of Income and Expense

national benefit framework it is not certain that such an allowance would be sufficient.

During the year the basis of valuation for council housing was changed by the Treasury resulting in a reduction in value of £354.7m of which £114.4m was offset by earlier revaluation gains. As the impairment is specific to the Council's housing services the balance of £239.3m has been included as part of the Cost of Service in the Comprehensive Income and Expenditure Statement within the Local Authority Housing (HRA) line; further information is provided in note 42 and within the HRA.

During the year, the value of the council's liability to meet the future cost of pensions Pension Fund reduced as a result of increased investment values and the change in key inflation assumptions (using the Consumer Price Index (CPI) instead of the Retail Price Index (RPI). The impact of these changes was to reduce the long term liability of the Pension fund by £167.4m the effect of which is reflected in part in the Cost of Services

and in part in the Actuarial Gains on Pensions Assets and Liabilities; further information is provided in note 45.

It should be noted that these two material items have no impact on the General Fund or Housing Revenue Account balances, as they are reversed out via the Movement in Reserves Statement. However, both the above items have a corresponding impact on the Net Worth of the Council on the Balance Sheet.

As a result of a landmark decision in the House of Lords, the Authority successfully secured a refund of overpaid tax in respect of previous years. The amount of £868k was included in the Comprehensive Income and Expenditure Statement net of professional advisors' fees in 2009/10; the comparable amount for 2010/11 was £58k.

### 6. Events after the Balance Sheet Date

The Statement of Accounts was authorised for publication by the Director of Finance and Resources on 30 September 2011. Events taking place after this date are not reflected in the financial statements or notes.

## 7. Adjustments between accounting basis and funding basis under regulations

	General Fund Balance	Earmarked General Fund Reserves	Housing Revenue Account (HRA)	Capital Receipts Reserve	Capital Grants Unapplied	Major Repairs Reserve	Movement in Unusable Reserves

### 8. Transfers to / (from) Earmarked Reserves

This note sets out the amounts set aside from the General Fund and Housing Revenue Account (HRA) balances in earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund and HRA expenditure in 2010/11. The basis for the note has changed from the last financial year in that the Schools' absence reserve has now been combined with the DSG reserve and the HRA rent reserve has been combined with the HRA working balance.

	Balance at 1/4/2009	Transfers in during 2009/10	Transfers out during 2009/10	Balance at 31/3/2010	Transfers in during 2010/11	Transfers out during 2010/11	Balance at 31/3/2011

Capital grants and contributions	(32,075)	(60,351)
Total	(205,061)	(235,523)

### 12. Property Plant and Equipment

The movements in the Council's Property, Plant and Equipment for the year 2010/11 are set out in the table below. Estimated asset lives and depreciation rates are set out in the Accounting Policies.

The Council revalues its Property, Plant and Equipment on a five year basis (25% each of the last four years of the programme and an impairment review in the final year) using its valuers, Wilks, Head & Eve. In 2010/11 the basis of valuation for Council Dwellings was changed by the Treasury and as a result a significant reduction in value has been accounted for and reflected in the table below and is further disclosed in note 42.

The Council's social housing stock has been valued in line with the Department of Communities and Local Government's (CLG) "Stock Valuation for Resource Accounting Guidance for Valuers" which is based on the existing use value for social housing (EUV-SH). This methodology is a departure from International Accounting Standards but is in accordance with current CIPFA and Treasury guidance.

At 31 March 2011 the Council had entered into the following contracts amounting to £73.6m (2009/10 £29.9m) for the construction or enhancement of its Property, Plant and Equipment in 2011/12 and future years. The major commitments are:

Schemes Over £5.0m	£000's
Sydney Russell Schools	26,350
New Council Housing	14,900
Advanced Skills Centre	11,059
Former UEL Site - New Primary School	9,638
Boroughwide Estate Renewal	6,382
Parks and Green Spaces Strategy	5,223
	73,552

### 13. Investment Properties

Investment Properties are assets owned by the Council and are held solely to earn rentals or for capital appreciation or both.

The following items of income and expense have been accounted for in the Comprehensive Income and Expenditure Statement:

	2009/10 £000's	2010/11 £000's
Rental income from investment property Direct operating expenses arising from investment	2,913	2,564
property	(918)	(626)
Net gain	1,995	1,938

The net gain includes an HRA surplus of £842k (2009/10 £888k) which has been adjusted for in arriving at the net income in relation to Investment Properties as set out in note 10.

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

Investment Properties are shown at fair value at the balance sheet date and are subject to revaluation as part of the Council's five-year rolling revaluation process and any changes in valuation are reflected in the fair value of the assets. The following table summarises the movement in the fair value of investment properties over the year:

	2009/10	2010/11
	£000's	£000's
Balance at start of the year	38,702	38,906
Additions:		
Subsequent expenditure	-	7,000
Disposals	(13)	-
Net gains/losses from fair value adjustments	217	-
Transfers:		
to/from Property, Plant and Equipment		(1,023)
Balance at end of the year	38,906	44,883

### 14. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include both purchased licenses and internally generated software.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful life assigned to all intangible assets is 5 years.

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £1.6m charged to revenue in 2010/11 was charged to the IT Administration cost centre and then absorbed as an overhead across all the service headings in the Net Expenditure of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

	2009/10 £000's	2010/11 £000's
Balance at Start of Year		
Gross Carrying Amount	5,746	8,589
Accumulated Depreciation	(1,033)	(1,623)
Net Carrying Amount at Start of Year	4,713	6,966
Additions		
Internal Development	70	-
Purchases	2,773	384
Amortisation for the period	(590)	(1,615)
Net Carrying Amount at the End of the Year	6,966	5,735

The internally generated intangible asset in 2009/10 relates to the development of the Council's website.

### 15. Financial Instruments

### **Categories of Financial Instruments**

The following categories of financial instrument are carried in the Balance Sheet:

Financial Instruments	Long 2009/10 £000's	Term 2010/11 £000's	<b>Cur</b> i 2009/10 £000's	rent 2010/11 £000's

### **Reclassifications**

With the exception of reclassifications as a result of the adoption of International Financial Reporting Standards, no financial instruments have been reclassified within the 2010/11 financial year.

### Fair Values of Assets and Liabilities

Financial liabilities, financial assets represented by loans and receivables and long-term debtors and creditors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- estimated ranges of interest rates at 31 March 2011 of 2.12% to 3.01% for loans from the PWLB and 3.61% to 4.00% for other loans receivable and payable, based on new lending rates for equivalent loans at that date
- no early repayment or impairment is recognised
- where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value
- the fair value of trade and other receivables is taken to be the invoiced or billed amount. The fair values calculated are as follows:

The information on which fair values have been based was provided by the Council's Treasury Advisors, Sector.

	2009/10		201	0/11
	Carrying		Carrying	
	Amount	Fair Value	Amount	Fair Value
	£000's	£000's	£000's	£000's
Financial Assets	30,180	31,138	28,113	28,181
Financial Liabilities	(70,750)	(76,046)	(70,749)	(73,829)
Long-term creditors	(87,549)	(87,549)	(74,421)	(74,421)

The fair value of the liabilities is higher than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is lower than the prevailing rates at the Balance Sheet date. This shows a notional future gain (based on economic conditions at 31 March 2011) arising from a commitment to pay interest to lenders below current market rates.

For each of the financial years reported, the Council held no Long Term Creditor balance. In instances where a balance is reported, the Council takes the position that the carrying value of the liabilities fully reflects their fair value.

### 16. Inventories

	Consumable Stores				То	tal
Balance outstanding at start of year	2009/10 £000's 125	2010/11 £000s 157	2009/10 £000's 125	2010/11 £000s 157

Written off balances	(89)	5	(89)	5		
Reversals of write-offs in previous years		-	-	-		
Balance outstanding at year-end	157	227	157	227		

### **17. Construction Contracts**

At 31 March 2011 the Council had no construction contracts in operation for which it was responsible for the delivery of the project. Construction contracts provided by third party contractors are disclosed in Property Plant and Equipment as assets under construction.

### 18. Debtors

	2009/10 £000's	2010/11 £000s
Central Government Bodies Other Local Authorities NHS Bodies Public Corporations and Trading Funds Other Entities and Individuals	19,185 2,430 - - 30,976	16,777 1,875 703 - 38,261
Total	52,591	57,616

### 19. Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

	2009/10 £000's	2010/11 £000s
Cash held by the Council Short-term deposits (less than 3 months to maturity	36	37
at Balance Sheet date)	10,001	7,500
Deposits at Call	69,471	58,002
Total Cash and Cash Equivalents	79,508	65,539

### 20. Assets Held for Resale

The Council did not have any Assets Held for Resale at the 31 March 2011 (31 March 2010; none)

### 21. Creditors

	2009/10 £000's	2010/11 £000s
Central Government Bodies	29,780	27,962
Other Local Authorities	5,619	5,026

LBBD Pension Fund	28,376	15,338
Other Entities and Individuals	37,524	37,971
Total	101,299	89,209

### 22. Provisions

	Insurance £000's	Other provisions £000's	Total Provisions £000s
Balance Outstanding at 1 April 2010	(9,500)	(260)	(9,760)
Additional provisions made in 2010/11	(1,405)	-	(1,405)
Amounts used during 2010/11	2,256	21	2,277
Balance Outstanding at 31 March 2011	(8,649)	(239)	(8,888)

#### **Insurance Claims**

Provision is made for those claims where it is deemed probable that the Council will have to make a settlement based on past experience of court decisions about liability and the amount of damages payable. However, it is not possible to determine precisely when any transfer of economic benefits will take place. The Council may be reimbursed by its insurers but until claims are actually settled no income is recognised as the insurers will only reimburse amounts above a £150k excess.

#### **Other Provisions**

All other provisions are individually insignificant.

### 23. Usable Reserves

Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement and also in note 8.

### 24. Unusable Reserves

Unusable Reserves	31 March 2011 £000's

	Revaluation Reserve Available for Sale Financial Instruments Reserve Capital Adjustment Account Financial Instruments Adjustment Account Deferred Capital Receipts Reserve Pensions Reserve Collection Fund Adjustment Account Accumulated Absences Account

### **Revaluation Reserve**

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. The balance is reduced when assets with accumulated gains are:

- used in the provision of services and the gains are consumed through depreciation,
- revalued downwards or impaired and the gains are lost, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

31 March 2010 £000's	Revaluation Reserve	31 March 2011 £000's

(1,701) (4,529)	historical cost depreciation Other Adjustments	(1,958) -
221,375	Balance at 31 March	173,832

### **Capital Adjustment Account**

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 7 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

31 March 2010 £000's	Capital Adjustment Account	31 March 2011 £000's
1,285,373	Balance at 1 April Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement	1,261,593
(69,613)	<ul> <li>Charges for depreciation and impairment of noncurrent assets</li> </ul>	(36,819)

825	<ul> <li>Capital expenditure charged against the General Fund and HRA balances</li> </ul>	226
3,084	Other Adjustments	57
1,261,593	Balance at 31 March	1,048,445

### **Pensions Reserve**

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. Statutory arrangements require benefits earned to be financed as the Council makes the employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them.

The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

31 March 2010 £000's	Pension Reserve	31 March 2011 £000's
(174,694)	Balance at 1 April	(360,806)
(181,840)	Actuarial gains or losses on pensions assets and liabilities Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income	99,159
(26,076)	and Expenditure Statement	49,578
	Employer's pensions contributions and direct	
21,804	payments to pensioners payable in the year	18,710
(360,806)	Balance at 31 March	(193,359)

### **Collection Fund Adjustment Account**

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

31 March 2010 £000's	Collection Fund Adjustment Account	31 March 2011 £000's
(569)	Balance at 1 April	(521)
	Amount by which council tax income credited to the	
	Comprehensive Income and Expenditure Statement is different from council tax income calculated for the	
48	year in accordance with statutory requirements	760
(521)	Balance at 31 March	239

### **Accumulated Absences Account**

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

31 March 2010 £000's 1,350 (1,350)	Accumulated Absences Account  Balance at 1 April Settlement or cancellation of accrual made at the end of the preceding year	31 March 2011 £000's 1,430 (1,430)

(3,357)	Other payments for financing activities	(1,513)
13,343	Net Cash Flows from Financing Activities	(1,928)

### 28. Amounts Reported for Resource Allocation Decisions

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the *Best Value Accounting Code of Practice*. However, decisions about resource allocation are taken by the Council's Cabinet on the basis of budget reports analysed across departments. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to services in the Comprehensive Income and Expenditure Statement);
- the cost of retirement benefits is based on cash flows (payment of employer's pensions contributions) rather than current service cost of benefits accrued in the year;
- expenditure on some support services is budgeted for centrally and not charged to departments.

Comparatives in respect of the 2009/10 Subjective Analysis were not available.

The income and expenditure of the Council's principal departments, as recorded in the budget monitoring reports for the year, is as follows:

Departmental Income and Expenditure 2010/11	Adults Services £000's	Children's Services £000's	Customer Services £000's	Finance & Resources £000's	Total £000's

Comparative figures for 2009/10 are not available

### 29. Acquired and Discontinued Operations

On 7<sup>th</sup> December 2010 the Council entered into a joint venture arrangement with Agilysis to create "Elevate" in which the parties each hold a 50% share in the equity of the joint venture company. The contract is for a period of seven years, with the option to extend for a further three years, at an average annual cost of £18m.

Elevate are contracted to provide the Council with services in respect of:

- ICT: Elevate will offer a reliable and secure IT Service, providing innovative solutions to ensure that ICT is an enabler of business transformation and efficiency;
- Customer Services: Elevate is building on well-established Customer Services operations
  as well as a strong heritage in developing online services to deliver an outstanding multichannel customer service offering;
- Revenues and Benefits: Elevate offers clients the 'Next Generation' of Revenues and Benefits Service, turning the traditional, outdated model of outsourcing on its head. By focussing the design on customers;
- **Procurement Outsourcing:** Elevate is working with the council to transform Procurement capabilities to meet the needs of increasingly challenging environments.

The Joint venture is expected to operate at break-even in the initial contact term and will utilise certain non-current assets owned by the council. The council has chosen not to prepare Group Accounts to reflect the assets and liabilities of the joint venture in 2010/11 accounts as:

- The costs associated with the joint venture service provision are included in the Comprehensive Income and Expenditure Account;
- The Council has retained ownership of the non-current assets utilised by the joint venture in providing the services to the council;
- The joint venture is not providing services to any other third parties;
- The net worth of the joint venture as at 31 March 2011 is £2k.

### 30. Trading Operations

The Council has established a number of trading units where the service manager is required to operate in a commercial environment and balance their budget by generating income from other parts of the council or other organisations.

- Teachers Accommodation: The Council provides an accommodation block for teachers new to the borough;
- Barking Market: The Council operates an open air street market in the centre of Barking generating rental income from stall holders. Management of the market is the responsibility of a third party organisation under a 15 year contract (from April 2000). The Council operates the market as a trading activity and is permitted to make a surplus. The (surplus)/deficit amounts reported below include the Council's full costs of operating the market;

- Eastbury Manor: This is an Elizabethan Manor House, owned by the National Trust and managed by Barking and Dagenham. It acts as a venue for civil weddings and partnerships and rooms can also be hired for meetings and conferences;
- Catering: An internally operated catering operation provides catering for both schools and council offices;
- Castle Green: This is a centre for the community that incorporates the Jo Richardson School. There are both sporting and conference facilities that can be hired.

Details of those trading units with a turnover greater than £50k in 2010/11 are as follows:

	2009/10 £000's	2010/11 £000's
1. Teachers Accommodation	2000 3	2000 3
Expenditure	176	116
Turnover	(242)	(233)
(Surplus)/Deficit	(66)	(117)
2. Barking Market		, ,
Expenditure	835	859
Turnover	(644)	(869)
(Surplus)/Deficit	191	(10)
3. Eastbury Manor		
Expenditure	313	310
Turnover	(73)	(69)
(Surplus)/Deficit	240	241
4. Catering		
Expenditure	6,771	6,825
Turnover	(5,940)	(6,206)
(Surplus)/Deficit	831	619
5. Castle Green		
Expenditure	1,322	1,402
Turnover	(1,317)	(1,414)
(Surplus)/Deficit	5	(12)
Total (Surplus)/Deficit from Trading Operations	1,201	721

The financial results of the trading operations are incorporated into the Comprehensive Income and Expenditure Statement, with a net deficit of £721k being included within net cost of services.

### 31. Agency Services

The Council carries out certain work for the East London Waste Authority (ELWA) on an agency basis for which it is reimbursed by way of a management fee. The areas of work relate to its role as Clerk to ELWA, carrying out administrative and legal work on their behalf. The financial position is shown below:

Agency Services	2009/10 £000's	2010/11 £000's
Expenditure incurred in providing services to ELWA Management fee payable by ELWA	474 (458)	563 (636)
Net deficit/(surplus) arising on the agency arrangement	16	(73)

The Council provided services for Thames Gateway London Partnership (TGLP) in 2009/10. No such service was provided in 2010/11 as responsibility for managing the Partnership passed to the London Borough of Newham on 1<sup>st</sup> April 2011 and the value of the fund as at 31 March 2010 subsequently transferred.

### 32. Pooled Budgets

The Council does not have any partnership schemes covered by Section 31 of the Health Act 1999.

#### 33. Members Allowances

The Authority paid the following amounts to members of the council during the year.

	2009/10	2010/11
	£000's	£000's
Salaries	510	475
Allowances	260	222
Expenses	3	22
Employers NI	55	50
Employers Pension	55	64
Total	883	833

### 34. Senior Officers' Remuneration (including Teachers)

Additional disclosure requirements have been introduced as a result of Regulation 4 of the Accounts and Audit (Amendment No.2) (England) Regulations 2009 to increase transparency and accountability for reporting the remuneration of senior employees (those who have executive decision making power). The disclosure requirements now comprise the following:

- (a) an analysis of the number of employees whose remuneration is in excess of £50k in bands of £5k:
- (b) an additional requirement listing those senior employees whose salary is £50k or more per year but less than £150k by way of job title:
- (c) a list of those employees whose salary is in excess of £150k by name and job title.

'Remuneration' is defined as all amounts paid to or receivable by a person, and includes sums due by way of expenses allowance (insofar as those sums are chargeable to United Kingdom

income tax) and the estimated monetary value of any benefits received by an employee other than in cash (e.g. benefits in kind).

'Salary' is generally accepted as the amount received under a contract of employment for services rendered (before the deduction of pension contributions) other than bonuses, allowances, benefits in kind or compensation payments.

## a) Analysis of employees whose remuneration is in excess of £50,000 2009/10 2010/11

	200	3/10	201	0/11

Note 1 The post was held by two people during the period. The annual salary is £131,757.

The title of this post changed to Corporate Director Finance & Resources, effective from 21 February 2011. The annualised Note 2 salary is £145,000; including a market supplement of £3,112.

Note 3

The post was deleted as part of the Council's restructure. The post holder left on 31/3/2010.
The Council ceased to be the accounting body for the Thames Gateway London Partnership on 31 March 2010. Note 4

### c) Senior Officers whose salary is £150,000 or more per year

Post Held	Year	Notes	Salary, Fees & Allowances	Bonuses	Expense Allowances	Compensation for Loss of Employment	Total (excluding pension contributions)	Employer's Pension Contribution	Total (including pension contributions)

Sir Paul Grant			164,384	-	232	-	164,616	22,964	187,580

The former Chief Executive, Robert Whiteman left on 16 May 2010 (Salary etc. paid £23,946). David Woods acted in the role from 17 May 2010 to 27 March 2011 (Salary etc. paid £125,370). Stella Manzie was appointed new Chief Executive on 1 March 2011 (Salary etc. paid £12,500). The annual salary for the post is £150,000.

Note 2 Roger Leighton's salary includes a market supplement of £45,334 and £33 related to teachers' council registration. His annual salary is £111,130.

Note 3 Sir Paul Grant's salary includes a market supplement of £60,456, £1,590 mid-day supervision payment and £33 related to teachers' council registration. His annual salary is £111,130.

# 35. External Audit Costs

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, statutory inspections and the certification of grant claims and to non-audit services provided by the Council's appointed external auditors, the Audit Commission.

	2009/10	2010/11
	£000's	£000's
Fees payable to the Audit Commission with regard to external audit services carried out in the year.  Fees payable to the Audit Commission in respect of	405	375
statutory Inspections.	20	44
Fees payable to the Audit Commission for the certification of grant claims and returns for the year.	130	120
Fees payable in respect of other services provided by the Audit Commission.	-	-
Total	555	539

# 36. Dedicated Schools Grant (DSG)

The Council's expenditure on schools is funded primarily by grant monies provided by the Department for Children, Schools and Families, the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the Schools Finance (England) Regulations 2008. The Schools Budget includes elements for a range of educational services provided on an authority-wide basis and for the Individual School Budget (ISB), which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2010/11 are as follows:

Total 2009/10		Central Costs	ISB	Total 2010/11
£000's		£000's	£000's	£000's
144,030 3,225	Final DSG for year Brought forward from previous year Carry forward to future years			154,312 3,225
_	agreed in advance		i	(1,992)
147,255	Agreed budgeted distribution in the year	16,250	139,295	155,545
(13,114) (130,916)	Actual central expenditure Actual ISB deployed to schools	(11,784) -	- (139,295)	(11,784) (139,295)
3,225	Carry forward to future years	4,466	-	4,466

#### **37. Grant Income**

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2010/11:

	2009/10 £000's	2010/11 £000's
Amounts credited to Taxation and Non Specific grant		
<u>Income</u>		
Revenue Support Grant	18,603	13,033
Area Based Grant (ABG)	16,188	19,642
Supporting People Grant	5,418	-
Housing & Planning Delivery Grant	217	-
Capital Grants	32,075	60,351
Amounts Credited to Services		
Home Office Grants	486	1,068
Department of Health Grants	1,548	1,939
Communities and Local Government Grants	150	640
Youth Justice Board Grants	741	869
Department for Education Grants	190	311
Department of Work and Pensions Grant	135,162	144,416
Skills Funding Agency	3,063	2,982
London Development Agency	-	317
Department for Children, Schools & Families	24,561	26,884
Dedicated Schools Grant (DSG)	144,030	154,312
Standards Fund	23,036	26,864
Young People's Learning Agency	245	336
Teacher's Development Agency	194	210
Other	-	267

The Council has recognised all grants, contributions and donations as income as they do not have conditions attached to them that will require the grants, contributions and donations to be returned to the giver.

# 38. Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by it. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

# **Central Government**

Central government has effective control over the general operations of the Council and is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective

analysis in Note 28 on reporting for resources allocation decisions. Grant received during the year are further analysed in Note 37.

#### Members

Members of the Council have direct control over the Council's financial and operating policies.

The total of members' allowances paid in 2010/11 is shown in Note 33. During 2010/11, no works or services were commissioned from companies in which members had an interest. Contracts were entered into in full compliance with the Council's standing orders.

In all instances, the grants were made with proper consideration of declarations of interest. The relevant members did not take part in any discussion or decision relating to the grants. Details of all these transactions are recorded in the Register of Members' Interest, open to public inspection at the Town Hall during office hours.

#### Officers

During 2010/11 the Senior Officers of the Council held no pecuniary interests in accordance with section 117 of the Local Government Act 1972 in contracts entered into by the Council.

# Other Public Bodies [subject to common control by central government]

The Council does not operate any "pooled budget" arrangements within the definition of Section 31 of the Health Act 1999.

#### Pension fund

The Council is the administering body of the Barking and Dagenham Pension Fund and has made arrangements for the proper administration of its financial affairs through the appointment of one of its officers.

# **Entities Controlled or Significantly Influenced by the Council**

The Council does not control or significantly influence any entities. It does participate in a joint venture the details of which are set out in note 29.

A number of elected members are either Directors or Trustees of a number of bodies that deliver services to the community or work in partnership with the Council the most significant of which are set out below:

- Councillor Evelyn Carpenter is a member of the Corporation of Barking and Dagenham College for which no remuneration is received and is a Council appointed member of the Elevate Limited Liability Partnership Board for which no remuneration is received:
- Councillor JR White is a Council appointed member of the Elevate Limited Liability Partnership Board for which no remuneration is received. Details of the Council's joint venture with Elevate are given in note 29;
- Councillors GM Vincent and G Letchford are Council appointed members of the East London Waste Authority (ELWA) the statutory body responsible for the disposal of waste in the London boroughs of Barking and Dagenham, Havering Newham and Redbridge.
- A number of elected members are connected with, or represented on, local voluntary organisations in receipt of annual grants from the Council totalling £756.0k (£578.0K 2009/10). None of these members are in a position to exercise undue influence over the awarding of any of these grants.

# 39. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI/PP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

Capital Financing Requirement	2009/10 £000's	2010/11 £000's
Opening Capital Financing Requirement Capital investment	68,715	115,886
<ul><li>Property, Plant and Equipment</li><li>Investment Properties</li><li>Intangible Assets</li></ul>	84,108 - 2,773	94,270 7,000 384
<ul> <li>Revenue Expenditure Funded from Capital under Statute</li> <li>Other movements</li> </ul>	10,058 -	4,536 638
Sources of Finance Capital receipts Government grants and other contributions Other contributions	(2,153) (31,250)	(227) (54,925) (633)
Sums set aside from revenue: - Direct revenue contributions - MRP/loans fund principal Other	(825) (1,201) (14,339)	(226) (4,021) (10,628)
Closing Capital Financing Requirement	115,886	152,054
Explanation of Movements in Year Increase in underlying need to borrowing (supported by		
government financial assistance) Increase in underlying need to borrowing (unsupported by	9,683	8,327
government financial assistance)	37,488	27,841
Increase in Capital Financing Requirement	47,171	36,168

#### 40. Leases

# Council as Lessee

# **Finance Leases**

The Robert Clack School has acquired IT equipment under a finance lease. The assets acquired under this lease are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

Assets acquired under a finance lease	31 March 2010	31 March 2011
	£000's	£000's
Property, Plant and Equipment		510

The School is committed to making minimum payments under the lease comprising settlement of the long-term liability for the interest in the equipment and finance costs that will be payable by the School in future years. The minimum lease payments are made up of the following amounts:

Minimum Lease Payments	31 March 2010 £000's	31 March 2011 £000's
Finance Lease Liabilities (net present value of minimum lease payments)		
- Current	-	101
- Non-current	-	272
Finance Costs Payable in Future Years		170
Minimum Lease Payments	_	543

The minimum lease payments will be payable over the following periods:

Finance Lease Payment profile	Minimum Lease Payments		Finance Lease Liabilities	
	31 March	31 March	31 March	31 March
	2010	2011	2010	2011
	£000's	£000's	£000's	£000's
Not later than one year  Later than one year and not later	-	181	-	101
than five years	-	362	-	272
Later than five years	-	-	-	-
	-	543	-	373

# **Operating Leases**

The Council has acquired property and vehicles under operating leases. The future minimum lease payments due under non-cancellable leases in future years are:

Operating Lease Payment profile	31 March 2010 £000's	31 March 2011 £000's
Not later than one year	593	488
Later than one year and not later than five years	1,677	1,433
Later than five years	4,184	3,940
	6,454	5,861

The expenditure charged to the Comprehensive Income and Expenditure Statement during the year in relation to operating leases was:

Operating Lease costs	2009/10	2010/11
•	£000's	£000's
Operating Lease payments	4,428	4,107

There were no contingent rents or sublease payments.

#### Council as Lessor

# **Operating Leases**

The Council leases out property under operating leases for investment purposes. These assets are classed as investment properties within the Balance Sheet. The future minimum lease payments receivable under non-cancellable leases in future years are:

Future Minimum Lease Payments Receivable	31 March	31 March
	2010	2011
	£000's	£000's
Not later than one year	2,738	2,639
Later than one year and not later than five years	9,020	8,955
Later than five years	48,569	49,180

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into. In 2010/11 £117k contingent rents were receivable by the Authority (£109k in 2009/10), these related to rents that are based on the Lessee's turnover.

#### 41. Private Finance Initiatives and Similar Contracts

# **PFI Schemes**

On 30 March 2004, the Council contracted with Bouygues (UK) Ltd to provide secondary school and community facilities for the Jo Richardson Community School at Castle Green Park and refurbishment works and services at Eastbury Comprehensive School under a Private Finance Initiative (PFI). The schools opened in September 2005 and provide the necessary suitable places to cater for steadily increasing pupil numbers in the borough.

# Changes in the arrangements during the year (Property Plant and Equipment)

The assets used to provide services at the schools are recognised on the Council's Balance Sheet and movements in their value over the year are detailed in the analysis of the movement on the Property, Plant and Equipment balance in Note 12.

# **Payments**

The Council makes an agreed payment each year which is increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but which is otherwise fixed. Payments remaining to be made under the PFI contract at 31 March 2011 (excluding any estimation of inflation and availability/ performance deductions) are as follows:

PFI Payments	Payment for Services	Reimbursement of Capital Expenditure	Interest	Total
	£000's	£000's	£000's	£000's
Payable in 2011/12	1,458	459	3,856	5,773
Payable within two to five				
years	6,208	2,365	15,187	23,760
Payable within six to ten years	8,673	4,621	18,026	31,320
Payable within eleven to fifteen				
years	9,813	7,561	15,969	33,343
Payable within sixteen to				
twenty years	9,550	10,255	9,819	29,624
Total	35,702	25,261	62,857	123,820

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred and interest payable.

The liability outstanding to pay the liability to the contractor for capital expenditure incurred is as follows:

Contractor Liability	2009/10 £000's	2010/11 £000's
Balance outstanding at start of year Payments during the year Capital expenditure incurred in the year	26,055 (377)	25,678 (417)
Balance outstanding at year-end	25,678	25,261

# 42. Impairment Losses

Paragraph 4.7.4.2(1) of the Code requires disclosure by class of assets of the amounts for impairment losses and impairment reversals charged to the Surplus or Deficit on the Provision of Services and to Other Comprehensive Income and Expenditure. These disclosures are consolidated in Notes 12 and 14 reconciling the movement over the year in the Property, Plant and Equipment and Intangible Asset balances.

During 2010/11, the Authority has recognised an impairment loss of £355.2m in relation to its land and buildings. The majority of this impairment was incurred due to a 40% decrease in the value of the authorities' council dwellings caused by a drop in house prices and a change in the adjustment factor for valuing council dwellings. Further information is set out in note 5.

The Council's social housing stock has been valued in line with the Department of Communities and Local Government's (CLG) "Stock Valuation for Resource Accounting Guidance for Valuers" which is based on the existing use value for social housing (EUV-SH). The Department for Communities and Local Government modified the adjustment factor for Council dwellings valuations in London, from 37% to 25%, thereby causing a significant drop in the value of council properties within this region. This methodology is a departure from International Accounting Standards but is in accordance with current CIPFA and Treasury guidance.

#### 43. Termination Benefits

As a result of the reorganisation of its service delivery, a number of employees were made redundant by the Council during 2010/11, incurring liabilities of £6.5m (2009/10 £4.3m). Of this total, £152k was payable to the Divisional Director of Housing Services, in the form of compensation for loss of office and £110k was payable to the Programme Director for Total Commissioning, (see note 34 for total remuneration bands). The remaining £6.2m was payable to 281 officers across the Council who were made redundant, in part through the Council's Voluntary Severance Scheme and its overall service transformation programme.

# 44. Pensions Schemes Accounted for as Defined Contribution Schemes

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by the Department for Education. The Scheme provides teachers with

specified benefits upon their retirement, and the authority contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The Scheme is technically a defined benefit scheme. However, the Scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. The Council is not able to identify its share of underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2010/11, the Council paid £10.7m to Teachers' Pensions in respect of teachers' retirement benefits, representing 14.1% of pensionable pay. The figures for 2009/10 were £10.3m and 14.1%. There were no contributions remaining payable at the year-end.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These costs are accounted for on a defined benefit basis and detailed in Note 45.

#### 45. Defined Benefit Pension Schemes

#### **Participation in Pension Schemes**

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement. The Council participates in two post employment schemes:

- The Local Government Pension Scheme, administered by the Council: this is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets;
- Arrangements for the award of discretionary post retirement benefits upon early retirement: this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pensions liabilities, and cash has to be generated to meet actual pensions payments as they eventually fall due.

# **Transactions Relating to Post-employment Benefits**

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

Comprehensive Income and Expenditure Statement	Local Government Pension Scheme		
	2009/10 £000's	2010/11 £000's	
Cost Of Services			
Current Service Cost	10,257	17,128	
<ul> <li>Past Service Costs</li> </ul>	728	(73,079)	
<ul> <li>Settlements and Curtailments</li> </ul>	1,139	(4,678)	
Financing and Investment Income and Expenditure			
<ul> <li>Interest Cost</li> </ul>	33,655	39,499	
<ul> <li>Expected Return on scheme assets</li> </ul>	(19,703)	(28,448)	
Total Post Employment Benefit Charged to the Surplus or Deficit on the Provision of Services  Other Post Employment Benefit Charged to the	26,076	(49,578)	
Comprehensive Income and Expenditure Statement:  • Actuarial (gains)/losses	181,840	(99,159)	
Total Post Employment Benefit Charged to the Comprehensive Income and Expenditure Statement	207,916	(148,737)	
<ul> <li>Movement in Reserves Statement</li> <li>Reversal of net charges made to the Surplus or Deficit for the Provision of Services for post</li> </ul>			
employment benefits in accordance with the Code	(26,076)	49,578	
Actual amount charged against the General Fund Balance for pensions in the year:			
<ul> <li>Employers' contributions payable to the scheme</li> </ul>	(20,138)	(17,003)	
Discretionary Benefits Arrangements			
Retirement benefits payable to pensioners	(1,666)	(1,707)	

The cumulative amount of actuarial gains and losses recognised in the Comprehensive Income and Expenditure Statement to the 31 March 2010/11 is a loss of £173.6m.

# Assets and Liabilities in Relation to Post-employment Benefits

Reconciliation of present value of the scheme liabilities (defined benefit obligation):	Local Government Pension Scheme	
	2009/10	2010/11
	£000's	£000's
Opening Balance at 1 April	488,680	785,487
Current Service Cost	10,257	17,128
Interest Cost	33,655	39,499
Contributions by scheme participants	6,836	6,040
Actuarial Gains and Losses	265,033	(104,246)
Benefits Paid	(19,175)	(24,357)
Discretionary Benefits Paid	(1,666)	(1,707)
Past service costs	728	(73,079)
Curtailments	1,139	309
Settlements	-	(21,584)
Closing Balance at 31 March	785,487	623,490

, in the second of the second		Local Government Pension Scheme	
	2009/10 £000's	2010/11 £000's	
Opening Balance at 1 April Expected rate of return Actuarial gains and losses Employer contributions Contributions by scheme participants Benefits paid Settlements	313,987 19,703 83,192 20,138 6,836 (19,175)	424,681 28,448 (5,087) 17,003 6,040 (24,357) (16,597)	
Closing Balance at 31 March	424,681	430,131	

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets.

The actual return on scheme assets in the year was £26.2m (2009/10; £103.0m).

Scheme History	2006/07 £000's	2007/08 £000's	2008/09 £000's	2009/10 £000's	2010/11 £000's
Present Value of liabilities: Local Government Pension	4				
Scheme	(509,920)	(495,110)	(488,681)	(785,487)	(623,490)
Discretionary Benefits	-	-	-	-	-
	(509,920)	(495,110)	(488,681)	(785,487)	(623,490)
Fair value of assets in the Local Government Pension Scheme Surplus/(deficit) in the scheme: Local Government Pension	385,420	391,281	313,987	424,681	430,131
Scheme Discretionary Benefits	(124,500)	(103,829)	(174,694)	(360,806)	(193,359) -
Total	(124,500)	(103,829)	(174,694)	(360,806)	(193,359)
•					

The liabilities show the underlying commitments that the Council has in the long run to pay post employment (retirement) benefits. The total liability of £623.5m has a substantial impact on the net worth of the authority as recorded in the Balance Sheet resulting in a negative overall balance of £193.4m (see note 5 for further information).

However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy:

- the deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme actuary;
- finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

The total contributions expected to be made to the Local Government Pension Scheme by the council in the year to 31 March 2012 is £15.7m.

# **Basis for Estimating Assets and Liabilities**

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Hymans Robertson LLP, an independent firm of Actuaries, estimates for the Pension Fund being based on the latest full valuation of the scheme as at 1 April 2010.

The principal assumptions used by the Actuary have been:

Actuarial Assumptions	Local Government Pension Scheme	
	2009/10	2010/11
Long-term expected rate of return on assets in the scheme:		
Equity Investments	7.8%	7.5%
Bonds	5.0%	4.9%
Property	5.8%	5.5%
Cash	4.8%	4.6%
Mortality Assumptions: Longevity at 65 for current pensioners:		
• Men	20.8 yrs	21.2 yrs
• Women	24.1 yrs	23.1 yrs
Longevity at 65 for future pensioners		
<ul><li>Men</li></ul>	22.8 yrs	22.7 yrs
<ul> <li>Women</li> </ul>	26.2 yrs	25.0 yrs
Rate of inflation	3.8%	3.6%
Rate of increase in salaries*	5.3%	5.1%
Rate of increase in pensions	3.8%	2.8%
Rate of discounting scheme liabilities	5.5%	5.5%
Take-up option to convert annual pension into retirement lump sum	30.0%	50.0%

<sup>\*</sup> Salary increases are 1% p.a. nominal for the year 31 March 2011 and the year 31 March 2012 reverting to 5.1% thereafter

The Discretionary Benefits arrangements have no assets to cover its liabilities. The Local Government Pension Scheme's assets consist of the following categories, by proportion of the total assets held:

Proportion of investment assets held	31 March	31 March
	2010	2011
	%	%
Equity Instruments	61.0	64.0
Debt Instruments	25.0	25.0
Property	7.0	7.0
Cash	7.0	4.0
	100.0	100.0

# **History of Experience Gains and Losses**

The actuarial gains identified as movements on the Pensions Reserve in 2010/11 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2011:

	2006/07 %	2007/08	2008/09 %	2009/10	2010/11 %
Experience gains (losses) on Plan Assets	(1.60)	(5.87)	(35.26)	19.59	(1.18)
Experience gains (losses) on Plan Liabilities	0.14	(6.12)	0.01	(0.12)	7.88

# 46. Contingent Liabilities

At 31 March 2011, the Council had no material contingent liabilities:

# **47. Contingent Assets**

At 31 March 2011, the Council had provisionally agreed a settlement in respect of the Fleming Case (VAT) amounting to £300k which is expected to be received in 2011/12.

# 48. Nature and Extent of Risks Arising for Financial Instruments

The Council's activities expose it to a variety of financial risks. The key risks are:

- Credit risk: the possibility that other parties might fail to pay amounts due to the Council:
- **Liquidity risk:** the possibility that the Council might not have funds available to meet its commitments to make payments;
- **Re-financing and Maturity risk:** the possibility that the Council might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms;
- Market risk: the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates and stock market movements.

The Council's overall risk management procedures focus on the unpredictability of financial markets, and are structured to implement suitable controls to minimise these risks. The procedures for risk management are set out through a legal framework in the *Local Government Act 2003* and associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and Investment Guidance issued through the Act. Overall, these procedures require the Council to manage risk in the following ways:

- by formally adopting the requirements of the CIPFA Treasury Management Code of Practice:
- by the adoption of a Treasury Policy Statement and treasury management clauses within its financial regulations/standing orders/constitution;
- by approving annually in advance prudential and treasury indicators for the following three years limiting the Council's overall borrowing;

Its maximum and minimum exposures to fixed and variable rates:

Its maximum and minimum exposures to the maturity structure of its debt;

Its maximum annual exposures to investments maturing beyond a year;

 by approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with the Government Guidance. These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported after each year, as is a mid-year update.

The annual treasury management strategy which incorporates the prudential indicators was approved by Council on 16 February 2010, in respect of 2010/11, and is available on the Council website. The key issues within the strategy were:

- To set the Authorised Limit for 2010/11 at £200m. This is the maximum limit of external borrowings or other long term liabilities;
- To approve the Operational Boundary, calculated for 2010/11 at £115m; this is the expected level of debt and other long term liabilities during the year;
- To set the maximum amount of fixed rate exposure at 100% of the Council's net debt; variable interest exposure was deemed to be not relevant;
- To limit maximum exposure to the maturity structure of debt to 10% of the portfolio maturing in any one year. The policy notes that this is currently not achievable as the Council has fewer than ten loans of equal size. Borrowing maturities are provided in the Refinancing and Maturity Risk section of this note.

These policies are implemented by a central treasury team. The Council maintains written principles for overall risk management, as well as written policies (Treasury Management Practices (TMP) covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash. These TMPs are a requirement of the Code of Practice and are reviewed periodically.

#### Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch's and Moody's credit ratings and Credit Default Swap (CDS) data which it receives from its advisers Sector Treasury Services as a basis for assessing credit risk as well as other market information. The Annual Investment Strategy also considers maximum amounts and time limits in respect of each financial institution. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above. Additional selection criteria are also applied after these initial criteria and full details of the Investment Strategy can be found on the Council's website.

The Council uses the creditworthiness service provided by Sector. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies - Fitch, Moody's and Standard and Poor's, forming the core element. Sector does not rely solely on the current credit ratings of counterparties but also uses the following as overlays:

- credit watches and credit outlooks from credit rating agencies;
- CDS spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

The full Investment Strategy for 2010/11 was approved by Council on 16 February 2010 in respect of 2010/11 and is available on the Council's website:

(http://moderngov.barking-dagenham.gov.uk/ieListDocuments.aspx)

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies of £93.5m cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at the 31 March 2011 that this was likely to crystallise.

In the past five years the Council has not experienced any exposure to credit risk, based on the levels of default assessed by the ratings agencies and its advisors. The Council does not allow credit for its trade debtors further reducing its exposure to credit risk and has not experienced any defaults in the last five years on its investments.

The carrying value of the exposure by financial instrument is summarised below:

Credit Risk Exposure	Rating Criteria	Amount Invested at 31 March 2011 £000's
Deposits with Banks	"AA" rated "A" rated	38,684 41,414
Deposits with Building Societies	"AA" rated	2,500
Deposits with Money Market Funds	"AAA" rated	10,904
Total Investments	- -	93,502

No breaches of the council's counterparty criteria occurred during the reporting period and the Council does not expect any losses from the non-performance by any of its counterparties in relation to deposits.

During the year the council did not give or receive any collateral as security for a financial instrument.

The Council generally requires trade debtors to be settled within 30 days; the aged debtor analysis of unpaid invoices issued through the accounts receivable system (included in Other Entities and Individuals, note 18) is as follows:

Aged Debtor Analysis	31 March	31 March
	2010	2010
	£000's	£000's
Less than three months	1,965	2,214
Three to six months	303	223
Six months to one year	356	216
More than one year	168	589

# **Liquidity Risk**

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the CIPFA Code of Practice. This seeks to ensure that cash is available when needed.

The Council has ready access to borrowings from the money markets to cover any day to day cash flow need, and the PWLB and money markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. The maturity analysis of financial liabilities is as follows:

	31 March	31 March
	2010	2011
	£000's	£000's
Deposits at call (no maturity)	61,992	58,050
Less than one year	39,127	35,656
Between one and two years	15,174	156
Between two and five years	376	318
More than five years		299
Total Financial Assets (excluding trade debtors)	116,669	94,479

All trade debtors (£9.1m) are deemed due to be paid in less than one year and are not included in the above.

# **Refinancing and Maturity Risk**

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- monitoring the maturity profile of investments to ensure sufficient liquidity is available
  for the Council's day to day cash flow needs, and the spread of longer term
  investments provide stability of maturities and returns in relation to the longer term
  cash flow needs.

The maturity analysis of financial liabilities is as follows, with the maximum and minimum limits for fixed interest rates maturing in each period:

	Approved minimum limits	Approved maximum limits *	Actual 2009/10 £000s	Actual 2010/11 £000s
Less Than One Year	-	7,000	4,959	1,459
Between 1 and 2 years	-	7,000	-	10,000
Between 2 and 5 years	-	21,000	30,000	20,000
Between 5 and 10 years	-	35,000	-	-
More than 10 years		130,000	40,000	40,000
Total		200,000	74,959	71,459

<sup>\*</sup>Note the maximum limit is based on the 10% of total borrowings as detailed in the Council's Investment Policy and an operational limit of £200m total borrowings.

# Market Risk Interest Rate Risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effects:

- Borrowings at variable rates the interest expense charged to the Comprehensive Income and Expenditure Statement will rise
- Borrowings at fixed rates the fair value of the borrowing will fall (no impact on revenue balances)
- Investments at variable rates the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- Investments at fixed rates the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus of Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in Other Comprehensive Income and Expenditure.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed. The risk of interest rate loss is partially mitigated by Government grant payable on financing costs.

The treasury management team has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget and which is used to update the budget quarterly during the year. This allows any adverse changes to be accommodated. The analysis will also advise whether new borrowing taken out is fixed or variable. According to this assessment strategy, at 31 March 2011 if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

Sensitivity Analysis of 1% change in rates	£000's
Increase in interest payable on variable rate borrowings	200
Increase in interest receivable on variable rate investments	(429)
Impact on Surplus or Deficit on the Provision of Services	(229)
Share of overall impact debited to the HRA	218
Decrease in fair value of fixed rate investment assets	143
Impact on Other Comprehensive Income and Expenditure	143
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other	
Comprehensive Income and Expenditure)	8,865

The impact of a 1% fall in interest rates would be as above but with the movements being reversed.

# **Price Risk**

Excluding the Pension Fund, the Council does not generally hold equity shares or marketable bonds as investments and is therefore not exposed to risk arising from share price movements.

# Foreign exchange risk

The Council has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to loss arising from movements in exchange rates.

# Housing Revenue Account

for the year ended

31 March 2011

# Housing Revenue Account (HRA) Income and Expenditure Statement

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Statement of Movement on the HRA Statement.

2009/10 £000's	Expenditure	2010/11 £000's
25,157	Repairs & Maintenance	22,872
28,452		31,662

# **MOVEMENT ON THE HRA STATEMENT**

The overall objectives for Movement on the HRA Statement and the general principles for its construction are the same as those generally for the Movement in Reserves Statement, into which it is consolidated. The statement takes the outturn on the HRA Income and Expenditure Statement and reconciles it to the surplus or deficit for the year on the HRA Balance, calculated in accordance with the requirements of the Local Government and Housing Act 1989.

2009/10 £000's		2010/11 £000's
(118)	Balance on the HRA at the end of the previous year	(2,756)
(4,940)	(Surplus)/Deficit for the year on the HRA Income & Expenditure Statement	235,546
2,517	Adjustments between accounting basis and funding basis under statute	(236,594)
(2,541)	Net (increase)/decrease before transfers to/from reserves	(3,804)
(215)	_ Transfers from Rental Income Reserve	(644)
(2,756)	Balance on the HRA at the end of the current year	(4,448)
	ADJUSTMENTS BETWEEN THE ACCOUNTING BASIS AND FUNDING BASIS UNDER STATUTE	
500	Contribution to Minimum Revenue Provision (MRP)	567
1,595	Reversal of gain on sale of HRA assets	3,346
-	Reversal of impairment losses	(239,323)
-	Holiday pay accruals	(122)
(1,580)	Net charges made for retirement benefits in accordance with IAS 19 (Note 9)	(1,617)
850	Transfer to Major Repairs Reserve (Note 3)	(421)
(892)	Transfer from insurance Reserve	-
(3)	Transfer from Leasehold Repairs Reserve	-
2,047	Employer's pension contributions	976
2,517	-	(236,594)

# NOTES TO THE HOUSING REVENUE ACCOUNT

# 1. Council Housing Stock

Dwelling type	units	Year of construction	units
Low rise flats	2,264	Pre 1919	291
Medium rise flats	4,580	1919 - 1944	9,403
High rise flats	2,574	1945 - 1964	4,025
Houses and bungalows	9,713	Post 1964	5,414
Multi Occupied	2	<u>_</u>	
	19,133		19,133

# The change in stock can be summarised as follows:

	2009/10	2010/11
	units	units
Stock at 1 April	19,300	19,202
Sales - Right to Buy	(51)	(69)
Technical Demolitions	(24)	-
Review of stock	(23)	
Stock at 31 March 2011	19,202	19,133

## The net book value of the HRA's non-current assets is as follows:

Property, Plant & Equipment	2009/10 £000's	2010/11 £000's
<ul> <li>Council Dwellings (see note 5)</li> <li>Other land &amp; buildings</li> <li>Vehicle, Plant &amp; Equipment</li> <li>Community Assets</li> </ul>	1,006,286 6,412 59 267	651,957 9,094 29 267
Investment Property	19,301	24,900
Total non-current assets	1,032,325	686,247

# 2. Vacant possession value

The vacant possession value of dwellings as at 31 March 2011 was £2.61 billion (31 March 2010, £2.73 billion). As set out in the statement of Accounting Policies, council dwellings are valued on the basis of Existing Use Value for Social Housing (EUV-SH). This value is less than the Vacant Possession Value to reflect the fact that local authority housing is let at sub-market rents and is arrived at after applying a regional adjustment factor of 25% in accordance with Government guidelines. The difference between the two values is a measure of the economic cost to the Government of providing council housing at less than open market rents.

# 3. Major Repairs Reserve

The following is an analysis of the Major Repairs Reserve (MRR) for 2010/11:

	2009/10 £000's	2010/11 £000's
Opening Balance 1st April 2010 Amount transferred to MRR Debits to the MRR in respect of capital expenditure	- (14,339)	- (10,627)
on HRA land and buildings Amount transferred to HRA from MRR	13,489 850	14,389 (909)
Closing Balance 31 March	-	2,853

# 4. Capital expenditure and receipts

The following analyses HRA capital expenditure and the sources of funding used:

	Borrowing Approvals	Major Repairs Reserve	Other Income	Total
	£000's	£000's	£000's	£000's
Houses	5,725	10,628	7,333	23,686
Total	5,725	10,628	7,333	23,686

Capital receipts derived from disposals of land, houses and other property within the HRA are summarised as follows:

	2009/10 £000's	2010/11 £000's
Houses	4,554	5,739
Other property	202	145
Total	4,756	5,884

# 5. Depreciation and impairment

The total charge for depreciation to the HRA was £13.4m (09/10 £12.6m) for dwellings and £0.5m (2010 £0.5m) for other property.

The Council commissioned an impairment review of all its assets from its valuers, Wilks Head & Eve. The conclusion of the valuers was that for all council dwellings the average decrease in value amounted to 37% or £354m as at the valuation date of 1 April 2010. £114.5m of this impairment was offset by the revaluation reserve and the remainder £239.3m being allocated to the Income and Expenditure Account.

# 6. Sums directed by the Secretary of State – Rent rebates transferred to General Fund

From 1 April 2004, HRA tenant rent rebates and the subsidy received from the Department for Work and Pensions (DWP) are accounted for in the General Fund. The exception to this is the subsidy withheld by the DWP because the rent levels set for the tenants are above the DWP guideline rent. This element, known as the 'rent rebate subsidy limitation', is charged to the HRA as a reimbursement to the General Fund for its loss of subsidy income. The reimbursement that is required from the Barking and Dagenham HRA in 2010/11 was nil (09/10, £31k).

# 7. Housing Subsidy

The subsidy payable to the Government from the HRA can be broken down as follows:

	2009/10 £000's	2010/11 £000's
Management & Maintenance	(39,620)	(40,206)
Major Repairs Allowance	(13,489)	(13,969)
	(53,109)	(54,175)
Dwelling Rents Caps and Limits Adjustment	71,763 (972)	73,203 (1,121)
Interest	429	141
	71,220	72,223
Subsidy Payable	18,111	18,048

#### 8. Rent Arrears

The following is an analysis of the arrears on individual tenant accounts at 31 March 2011:

	2009/10 £000's	2010/11 £000's
HRA arrears	5,472	6,812
HRA arrears were made up of:		
Dwelling rents	5,022	4,984
Other charges/adjustments	450	1,828
_	5,472	6,812

During 2010/11 arrears have increased to 1.24% of net rent income, compared with 1.25% in 2009/10. The total provision for rent arrears at 31 March 2011 was £3.022 million.

#### 9. IAS 19 - Retirement Benefits

The Authority considers it to be proper accounting practice to allow the HRA to be charged with an attributable share of current and past service costs. From 2005/06, the HRA has also been charged with an attributable share of pension interest costs, less

expected return on pension assets. However, as local authorities can only charge actual employer contributions and payments against the HRA, the IAS 19 entries are reversed out in the Movement on the HRA statement and replaced by actual employers' contributions payable to the scheme. The Core Statement note 45 gives further details.

# **The Collection Fund**

for the year ended 31 March 2011

# **Collection Fund Income and Expenditure Account**

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

2009/10 £000's		Note	2010/11 £000's

# 1. Council Tax

The Council levied a Council Tax of £1,326.22 for a Band 'D' property in 2010/11 (2009/10; £1,326.22) comprising:

	2009/10 £	2010/11 £
London Borough of Barking and Dagenham Greater London Authority	1,016.40 309.82	1,016.40 309.82
Total Band 'D' Council Tax	1,326.22	1,326.22

The tax base used to determine this figure was Band 'D' equivalent properties calculated as follows:

Band	Number of Properties after Discounts and Exemptions	Band 'D' Equivalent Properties
A (Disabled)	4.5	2.5
Α	5,625.8	3,750.5
В	8,755.6	6,809.9
С	37,415.0	33,257.8
D	7,363.8	7,363.8
E	1,505.3	1,839.9
F	311.8	450.4
G	39.8	66.3
Н	6.7	13.4
		<u> </u>
Total Band 'D' e	quivalents as at 01/12/2009	53,554.5
Add estimated no	ew properties	284.8
Less estimated of	lemolitions	(76.4)
Less changes to	discounts and exemptions	(535.6)
Estimated Band	l 'D' equivalents for 2010/11	53,227.3
Less 3% non-col	lection rate	(1,596.8)
Council Tax Bas	se for 2010/11	51,630.5
Council Tax Base	e for 2009/10	51,527.5

# 2. Precepting Authorities

The precepts levied on the Collection Fund were as follows:

	2009/10 £000's	2010/11 £000's
London Borough of Barking and Dagenham Greater London Authority	52,373 15,964	52,477 15,996
	68,337	68,473

# 3. (Surplus) / Deficit Transferred

This figure represents the transfer of the estimated deficit on the Council Tax Collection Fund account as at 31 March 2011 to the London Borough of Barking and Dagenham's General Fund and to the Greater London Authority in 2010/11.

Any surplus or deficit on the Collection Fund is required to be taken into account in the Council's future budget setting process. The table below summarises this position:

2009/10 £000's	2010/11 £000's
(5.15)	
(640)	264
	264
(39)	
	47
(679)	311
	£000's (640)

# 4. National Non Domestic Rates (NNDR)

Under the arrangements for Uniform Business Rates, the Council collects rates in the Borough based on rateable values which are assessed by the District Valuer, multiplied by a uniform rate in the pound which is set each year by the Government.

The total proceeds, less certain relief's and allowances are paid into a central pool managed by the Government and these in turn are redistributed to local authorities as a standard amount per head of relevant population.

From 1 April 2010, those ratepayers with a Rateable Value in excess of £55k are subject to an additional levy from the Greater London Authority on their Business Rates to fund the Crossrail project.

National Non Domestic Rates	2009/10	2010/11
Rateable Value at 31 March	£115,795,374	£146,762,406
Small business non-domestic rating multiplier, for premises with rateable values below £25,500 (£21,500 in 2009/10)	48.1p	40.7p
Non-domestic rating multiplier, for premises with rateable values of £25,500 and above (£21,500 in 2009/10)	48.5p	41.4p
Additional Crossrail Business Rate Supplement multiplier, levied on premises with a rateable value above £55,000 (not levied before 2010/11)	N/A	2.0p

The total non-domestic rateable value at 31 March 2011 was £146.8m; the non-domestic rating multiplier for the year was 41.4p. The product of this is £60.8m. This represents potential income at the year end, and thus differs from bills issued during the year due to relief for empty properties, transitional relief, partial relief, small business rate reliefs.

# **Notes to the Pension Fund Accounts**

#### 1. Format of the Pension Fund Statement of Accounts

The Council is the administering authority for the London Borough of Barking and Dagenham Pension Fund and has exclusive responsibility for it. The Council delegates responsibility for the administration of the pension fund to **State Street**, a third party company which is responsible considering all pension matters and discharging the obligations and duties of the Council under the Superannuation Act 1972 and other statutes relating to investment issues.

The day to day administration of the Fund and the operation of the management arrangements and investment portfolio is delegated to the Corporate Director of Finance and Resources.

The Fund is operated as a funded, defined benefit scheme which provides for the payment of benefits to former employees of the London Borough of Barking and Dagenham (**LBBD**) and those bodies admitted to the Fund, referred to as "members". The benefits include not only retirement pensions, but also widow's pensions, death grants and lump sum payments in certain circumstances. The Fund is financed by contributions from members, employers and from interest and dividends on the fund's investments.

The objective of the Pension Fund's financial statements is to provide information about the financial position, performance and financial adaptability of the Fund and show the results of the Council's stewardship in managing the resources entrusted to it and for the assets at the period end.

# 2. Accounting Policies

- 2.1 The Accounts summarise the transactions and net assets for the Pension Fund and comply in all material respects with the Code of Practice for Local Authority Accounting in the United Kingdom 2010/11. There were no were no material changes following the transition to IFRS.
- **2.2** The financial statements do not reflect any liabilities to pay pension or other benefits occurring after 31<sup>st</sup> March 2011; such items are reported separately in the Actuary's Report provided in note 13 to the Pension Fund accounts.
- **2.3 Basis of Preparation**; The accounts have been prepared on an accruals basis (that is income and expenditure are recognised as earned or incurred, not as received and paid) except in the case of Transfer Values which are included in the accounts on a cash basis.
- **2.4 Investments** are shown in the Net Assets Statement at market value on the following bases:
  - **2.4.1** Quoted investments are valued at bid price at the close of business on 31 March 2011.
  - **2.4.2** Unquoted investments are based on market value by the fund managers at year end in accordance with accepted guidelines.
  - **2.4.3** Pooled Investment Vehicles are valued at the closing bid price where both bid and mid prices are quoted.

- 2.4.4 Investments held in foreign currencies have been valued in sterling at the closing rate ruling on 31 March 2011. All foreign currency transactions are translated into sterling at exchange rates ruling at the closing rate of exchange.
- **2.5 Management Expenses** in respect of Fund Managers fees are set on a percentage of the value of funds under their management together with any fixed element.

# 2.6 Taxation

- **2.6.1** The Fund is an exempt approved fund and therefore not liable to UK income tax on interest, dividends and property income, or to capital gains tax;
- **2.6.2** Value Added Tax is recoverable on all fund activities by the administering authority;
- **2.6.3** Taxation agreements exist between Britain and other countries whereby all or a proportion of the tax deducted locally from investment income may be reclaimed. Non-recoverable deductions are classified as withholding tax.

# 3. Contributions

Contributions represent the total amounts receivable from the employing authority (LBBD) in respect of its own contributions and those of its pensionable employees. Employees pay contributions based on the level of pay they receive, with contribution rates set between 5.5% and 7.5% dependent on pensionable pay. The employer's contributions are made at a rate determined by the Fund's Actuary and are set at a rate necessary to maintain the Fund in a state of solvency, having regard to existing and future liabilities.

The primary contribution rate used during the financial year ending 31 March 2011 was 19%. Contributions shown in the revenue statement may be categorised as follows:

Contributions	2009/10	2010/11
	£000's	£000's
Members normal contributions		
Council	6,728	6,142
Admitted bodies	300	431
Scheduled bodies	1,687	1,851
Additional retirement costs	117	153
Total contributions from members	8,832	8,577
Employers normal contributions		
Council	17,918	17,501
Admitted bodies	829	1,138
Scheduled bodies	5,016	5,159
Additional retirement costs	-	-
Capitalised redundancy costs	2,365	316
Total contributions from employers	26,128	24,114
Total Contributions	34,960	32,691

Additional Voluntary Contributions (AVCs) administered by the Prudential, made by London Borough of Barking & Dagenham employees during the year amounted to £429k (2009/10 £351k). AVCs are not included in the pension fund accounts in accordance with regulation 5(2) of the Pension Scheme (Management and Investment of Funds) Regulations 1998 (SI 1998 No 1831).

AVCs were valued by Prudential at a market value of £5.0m (2009/10 £4.6m). The above figure includes employees of London Borough of Barking and Dagenham, Scheduled and Admitted Bodies.

# 4. Benefits, Refunds of Contributions and Transfer Values

Benefits payable and refunds of contributions have been brought into the accounts on the basis of all valid claims approved during the year. Transfers out/in are those sums paid to, or received from, other pension schemes and related to the period of previous pensionable employment:

## Benefits, Refunds of Contributions and Transfer Values

				2009/10				2010/11
	Council £000's	Admitted Bodies £000's	Scheduled Bodies £000's	Total £000's	Council £000's	Admitted Bodies £000's	Scheduled Bodies £000's	Total £000's
Pensions	17,661	498	2,685	20,844	18,434	803	2,383	21,620
Lump sums	5,487	72	537	6,096	4,763	612	800	6,175
Transfers	3,703	121	1,529	5,353	5,970	70	701	6,741

	27,272	696	4,822	32,790	29,429	1,485	3,884	34,798

# 5. Debtors and Creditors

The following amounts were debtors or creditors for the Pension fund at 31 March 2011:

Debtors	2009/10	2010/11
	£000's	£000's
Other investment Balances		
Investment sales	6,617	1,053
Dividends receivable	1,834	1,670
Stock lending	2	2
Tax recoverable	-	694
	8,453	3,419
Current Assets		
Pension contributions due	137	285
London Borough of Barking and Dagenham	28,376	15,337
	28,513	15,622
Total Debtors	36,966	19,041

Included in Debtors is an amount due from LBBD which reflects cash held and invested by the Council on behalf of the Pension fund.

Creditors	2009/10 £000's	2010/11 £000's
Other investment balances		
Investment purchases	8,369	2,317
Current Liabilities		
Unpaid benefits	21	95
Administrative expenses	535	1,108
Total Current Liabilities	556	1,203
Total Creditors	8,925	3,520
Net Debtors	28,041	15,521

# 6. Cash

The cash balance held at 31 March 2011 is made up as follows:

Cash balances held by Investment Managers	2009/10	2010/11
	£000's	£000's
Aberdeen	934	1,322
Alliance Bernstein	3,343	2,935
Goldman Sachs	1,257	1,030
RREEF	3,530	3,818
Prudential / M&G	-	26
Schroders	-	143
Total Cash	9,064	9,274

# 7. Taxation

The Fund is an exempt approved fund and therefore not liable to UK income tax on interest, dividends and property income, or to capital gains tax;

Value Added Tax is recoverable on all fund activities by the administering authority;

Taxation agreements exist between Britain and other countries whereby all or a proportion of the tax deducted locally from investment income may be reclaimed. The proportion reclaimable and the timescale involved varies from country to country.

# 8. Membership of the Fund

The following table sets out the membership of the Pension fund at 31 March 2011:

Membership	2009/10	2010/11
	members	members
London Borough of Barking and Dagenham		
Active members	4,452	3,735
Pensioners	3,709	3,855
Deferred pensioners	2,872	3,213
Undecided and other members	323	293
	11,356	11,096
Admitted and Scheduled Bodies		
Active members	1,043	1,163
Pensioners	748	781
Deferred pensioners	797	841
Undecided and other members	104	91
	2,692	2,876

# The following bodies have been admitted into the Fund Admitted Bodies

Age Concern Barking (in liquidation\*)

Abbeyfield Barking Society

Barking and Dagenham Citizen's Advice Bureau

Barking Council for Voluntary Service

Disablement Association of Barking and Dagenham

East London E-Learning

Elevate

Enterprise (Thames Accord)

London Riverside

#### Scheduled bodies

University of East London

**Magistrates Court** 

**Barking College** 

# 9. Statement of Investment Principles

A Statement of Investment Principles has been agreed by the Council's Investment panel and is updated periodically to reflect changes made in Investment Management arrangements. The nature and extent of risk arising from financial instruments and how the pension fund manages those risks is included in the Statement of Investment Principles. Copies can be obtained from the Council's website <a href="www.lbbd.gov.uk">www.lbbd.gov.uk</a> together with the Annual Report of the Pension Fund which provides additional information on the fund.

#### 10. Investments

The fund employs a number of specialist investment managers with mandates corresponding to the principle asset classes:

<sup>\*</sup>The value of the pension liability in respect of Age Concern Barking has been estimated by the scheme Actuary at £897,000.

# Investment Manager Investment Area

Aberdeen Bonds

Alliance Bernstein Global and UK Equities
Goldman Sachs Overseas Equities

RREEF Property Investments (UK)

Prudential/M&G Alternatives - UK Companies Financing Fund Schroders Property Investments (UK Fund of Funds)

The value of the Fund, by manager, as at 31 March 2011 was as follows:

Fund by Investment Manager	2009/10 £000's	2009/10 %	2010/11 £000's	2010/11 %
Aberdeen	140,767	27.0%	148,315	26.1%
Alliance Bernstein	162,816	31.2%	171,664	30.1%
Goldman Sachs	177,508	34.1%	193,356	34.0%
RREEF	40,154	7.7%	42,005	7.4%
Prudential/M&G	-	-	4,039	0.7%
Schroders		-	9,923	1.7%
	521,245	100%	569,302	100%

The movement in the opening and closing value of investments during the year, together with related direct transaction costs were as follows:

	Market Value			Change in Market	Market Value
	01/04/2010	Purchases	Sales	Value	31/03/2011
	£000's	£000's	£000's	£000's	£000's
<b>UK Investment Assets</b>					
Quoted	207,519	111,800	(105,372)	7,158	221,105
Unquoted	83,632	17,161	(7,443)	3,955	97,305
	291,151	128,961	(112,815)	11,113	318,410
Overseas Investment Assets					
Quoted	185,346	205,118	(198,504)	9,255	201,215
Unquoted	44,748	3,543	(530)	1,916	49,677
	230,094	208,661	(199,034)	11,171	250,892
Total Investments	521,245	337,622	(311,849)	22,284	569,302

#### 11. Investment Income

	2009/10 £000's	2010/11 £000's
Fixed Interest Income	3,132	2,691
Dividends	8,131	8,957
Property Income	1,259	1,768
Interest - Manager's Cash Balances	17	3
Interest - LBBD balance *	589	318
Currency Gain/(Loss)	(105)	(293)
Stock Lending	19	62
Commission Recapture	3	218
	13,045	13,724

<sup>\*</sup>The income earned from the cash held with LBBD is an apportionment of the total interest generated by LBBD investments based on the average balance for the year.

#### 12. Securities

The value of listed and unlisted securities is broken down as follows:

	2009/10	2010/11
	£000's	£000's
Liplinto d	440.075	100.000
Unlisted	119,375	188,623
Listed	410,323	384,098
Total Investments	529,698	572,721
Working Capital	19,588	12,102
Total Net Assets	549,286	584,823

#### 13. Actuarial Position

#### **Actuarial assumptions**

The triennial review of the Fund took place as at 31 March 2010 and the salient features of that review were as follows:

- The funding target remains unchanged to achieve a funding level of at least 100% over a specific period
- The key financial assumptions adopted at this valuation are:
- Future levels of price inflation are based on the Consumer Price Index (CPI); previously Retail Price Inflation.
- Future levels of real pay increases assumed to be 2.0% p.a. in excess of price inflation based on CPI;

- Funding basis discount rate is based on an Asset Outperformance target of 1.6% p.a. above the yield on fixed interest (nominal) and index-linked (real) Government bonds;
- The market value of the pension scheme's assets at the date of the valuation, were £549million.
- The use of an appropriate Asset Outperformance Assumption is based on available evidence and is a measure of the degree of prudence assumed in the funding strategy.

The valuation has made assumptions about member longevity and has used the following average future life expectancies for pensioners aged 65 at the valuation date

Longevity Assumptions	2007	2007	2010	2010
at 31 March	Males	Females	Males	Females
Average future life expectancy (in years for a pensioner)	20.7	23.6	19.1	20.9
Average future life expectancy (in years) at age 65 for a non-pensioner assumed to be aged 45 at the valuation date	20.7	23.6	21.2	23.1

The key financial assumptions adopted by the actuary for the valuation of members' benefits at the 2010 valuation are set out below:

Financial Assumptions	Derivation	Rate a	
Price Inflation (CPI)	Market expectation of long term future inflation as measured by the difference between yields of fixed and index linked Government bonds at the valuation date less 0.5% per annum	3.30%	-
Pay Increases	Assumed to be 1.5% in excess of price inflation	5.30%	2.00%
Gilt based discount rate	The yield on fixed interest (nominal) and index linked (real) Government bonds	4.50%	1.20%
Funding basis discount rate	Assumed to be 1.6% above the yield on fixed interest Government bonds	6.10%	2.80%

# **Funding Level**

The table below shows the detail funding level for the 2010 valuation:

Employer Contribution Rates	as at 31 March	
	2007	2010
Net Employer Future Service Cost	14.2%	16.1%
Past Service Adjustment – 20 year spread	4.5%	8.3%
Total Contribution Rate	18.7%	24.4%

# **Funding Position**

The table below shows the funding position for the 2010 valuation and illustrates how the funding objective has been met in the form of a funding level:

Past Service Funding Position at 31 March	2007 £m	2010 £m
Past Service Liabilities	()	()
Employees	(285)	(298)
Deferred Pensioners	(239)	(117)
Pensioners	(81)	(314)
	(605)	(729)
Market Value of Assets	530	549
Funding Deficit	(75)	(180)
Funding Level	87.6%	75.3%

#### **Funding Assumptions**

The table below shows the assumptions used by the actuary to arrive at the 2010 actuarial funding position:

31	A	As at 31 Marcl	ſ
	2007	2010	2010
	Funding	Funding	Gilts
	Basis	Basis	Basis
	(% p.a.)	(% p.a.)	(% p.a.)
Discount Rate	6.1%	6.1%	4.5%
Price Inflation	3.2%	3.3%	3.3%
Pay Increases	4.7%	5.3%	5.3%
Pension Increases			
<ul> <li>Pension in excess of GMP</li> </ul>	3.2%	3.3%	3.3%
- Post 1988 GMP	2.8%	2.8%	2.8%
- Pre 1988 GMP	0.0%	0.0%	0.0%
Revaluation of deferred pensions	3.2%	3.3%	3.3%
Expenses	0.5%	0.5%	0.5%

#### **Total Contribution Rate**

The Common Rate of Contribution payable by each employer from 1 April 2014 is 24.4% of pensionable pay. The table below shows the Minimum Total Contribution Rates, expressed as a percentage of pensionable pay, which apply to the 2011/12 accounting period:

London Borough of Barking and Dagenham	19.5%
University of East London	20.2%
Barking College	18.2%
Disablement Association of Barking and Dagenham	22.9%
Barking and Dagenham Citizen's Advice Bureau	17.2%
Elevate	19.5%
Enterprise	21.1%
E-Learning Cross River	14.5%

The financial statements do not take account of liabilities to pay pensions and other benefits after the period end.

# Present value of funded obligation

The net liability of the fund in relation to the actuarial present value of promised retirement benefits and the net assets available to fund these benefits is as follows (based upon IAS 19 information available as at 31st March 2011 in respect of the Council's obligation):

	31 March	31 March
	2010	2011
	£000's	£000's
Total present value of funded obligation	(785,487)	(623,490)
Fair value of scheme assets	424,681	430,131
Net Liability	(360,806)	(193,359)

# 14. Administrative Expenses

	2009/10	2010/11
	£000's	£000's
Administration and Processing	387	447
Audit Fee	35	35
Actuarial Fees	56	86
Legal and Other Professional Fees	95	104
	573	672

# 15. Investment Management Expenses

	2009/10	2010/11
	£000's	£000's
Aberdeen	234	295
Alliance Bernstein	796	863
Goldman Sachs	678	789
RREEF	262	290
State Street (Custodian)	245	193
Prudential M&G	-	8
Schroders		6
	2,215	2,444

#### 16. Related Parties

The Pension Fund is a related party of the Council as the following transactions are controlled by the Council:

- Cash investments of £15.3m (2009/10; £28.4m) are managed on behalf of the
- Pension administration costs of £447k (2009/10; £387k) are charged by the Council.

# 17. Contingent Liabilities

There are no contingent liabilities at the Fund Statement date

#### 18. Post Balance Sheet Events

There are no adjusting or non-adjusting events which have occurred after the Fund Statement date.

#### 19. Nature and Extent of Risks Arising from Financial Instruments

The pension fund activities expose it to a variety of financial risks in respect of financial instruments:

- Credit risk the risk that other parties may fail to pay amounts due;
- Liquidity risk the risk that the pension fund may not have funds available to meets its commitments to make payment;
- Refinancing risk the risk that the pension fund might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms; and
- Market risk the possibility that financial loss might arise from the fund's as a result of changes in such measures as interest rates or stock market movements.
   A 10 % fall in stock market values could result in a £38.4m reduction the value of the investments listed on those markets.

The procedures for risk management in relation to key financial instruments is set out through the legal framework detailed within the Local Government Act 2003 and other associated regulations. These require compliance to all CIPFA Treasury Management practices, CIPFA Prudential Code and Investment Guidance as applicable to the Council.

The Pension Fund holds some pension fund assets in cash which are held with the Council's investments in line with treasury management strategy and guidelines.

# **Glossary of Terms**

<u>Term</u>	<u>Definition</u>
Accounting Policies	The rules and practices adopted by the Council that dictate how transactions and events are shown or costed.
Accruals	Amounts included in the accounts to cover income and expenditure attributable to the financial year, but for which payment had not been received or made as at 31 March.
Actuarial Valuation	A review carried out every three years, by the actuary, on the assets and liabilities of the Pension Fund. The actuary reports to the Fund's trustees on the financial position and recommended employer's contribution rates.
Balance Sheet	A statement showing the position of the Council's assets and liabilities as at 31 March in each year.
Beacon Properties	The Council's housing stock is grouped into similar types and a sample from each type, known as beacon properties, are valued with the results being multiplied up to give a total value for each type.
Budget	A forecast of the Council's planned expenditure. The level of the council tax is set by reference to detailed revenue budgets. Budgets are reviewed during the course of the financial year to take account of pay and price changes, and other factors affecting the level or cost of services.
Capital Expenditure	Expenditure on the acquisition or enhancement of assets that are considered to be of benefit to the authority over a period of more than one year, e.g. buildings and land. Other examples include payments of grants and financial assistance to third parties and expenditure that is classified as capital following a Ministerial direction e.g. capitalised redundancy costs.
Capital Adjustment Account	A capital reserve which reflects the difference between the costs of fixed assets consumed and the capital financing set aside to pay for them. This is an accounting reserve which is not backed by cash and does not represent resources available to fund future capital expenditure.
Capital Receipts	Income received from the sale of land, buildings and other capital assets.
Central Support Services	Services that are provided by the administrative and professional service groups that support all the council's services. They include financial, legal, personnel, IT, property and general administrative support.
Collection Fund	A separate account that discloses the income and expenditure relating to residual community charge, council

tax and National Non Domestic Rates (NNDR).

Community Assets

A class of fixed assets that are expected to be held by the Council in perpetuity. Examples include parks, historic buildings and works of art.

Comprehensive Income and Expenditure Account

A statement which details the total income received and expenditure made by the Council in the year. It is reconciled back to the General Fund Balance through the Statement of Movement in Reserves.

Council Tax

Introduced in 1993 as a replacement for the community charge (Poll Tax). It is set by both the billing authority and precepting authority. The level is determined by the revenue expenditure requirement for each authority, divided by the council tax base for the year.

Council Tax Base

An amount calculated for each billing authority from which the grant entitlement of its area is derived. The number of properties in each band is multiplied by the relevant band proportion in order to calculate the number of band D equivalent properties in the area. The calculation allows for exemptions and discounts, appeals and a provision for non-collection.

Council Tax Requirement

The council tax requirement for the billing and local precepting authorities. This is the amount calculated under Section 97(1) of the Local Government Finance 1988 Act to be transferred from the Collection Fund to the General Fund (except where the amount calculated is negative, in which case it is the amount to be transferred from the General Fund to the Collection Fund)

Creditors

Amounts owed by the Council for goods received or services provided before the end of the accounting period but for which payments have not been made by the end of that accounting period.

Debtors

Amounts due to the Council before the end of the accounting period but for which payments have not yet received by the end of that accounting period.

**Deferred Liabilities** 

These are creditor balances repayable after one year.

Defined Benefit Scheme

A pension or retirement benefit scheme into which an employee pays regular contributions fixed as an amount or as a percentage of pay. There are no legal obligations to pay further contributions if the scheme does not have sufficient assets to pay all employees benefits relating to employee service in the current and prior periods.

Depreciation

The loss in value of an asset due to age, wear and tear, deterioration or obsolescence.

Earmarked Reserves

These are reserves set aside for a specific purpose or a

particular service, or type of expenditure.

Finance Lease A finance lease is one that transfers a substantial proportion

of the risks and rewards of a fixed asset to the lessee. With finance lease the present value of the lease payments equates to substantially all of the value placed on the leased

asset.

General Fund The account that summarises the cost of providing council

services (excluding the Housing Revenue Account)

Government Grants Assistance by the Government and their agencies in the

form of cash or transfer of assets to an authority, which may be in return for the past or future compliance with certain

conditions relating to the activities of the authority.

Gross Expenditure The total cost of providing services before taking into

account income, e.g. from Government grants or fees and

charges.

Historic Cost The actual cost of an asset in terms of past consideration as

opposed to its current value.

Housing Revenue Account A statutory ring-fenced account maintained separately from

the General Fund for the recording of income and

expenditure relating to the provision of council housing.

Housing Subsidy This represents a Government grant payable towards the

cost of providing local authority housing and the

management and maintenance of that housing.

Impairment A reduction in the value of a fixed asset, below the amount it

is included at on the balance sheet. Impairment can arise from either the consumption of economic benefits or a

general reduction in prices.

Infrastructure Assets Fixed assets that are recoverable only by continued use of

the asset created. Examples of infrastructure assets are

highways and footpaths.

Interest The amount received or paid for the use of a sum of money

when it is invested or borrowed

Inventories The amount of unused or un-consumed goods held in

expectation of future use within one year. Stocks are valued at the end of each financial year and carried forward to be

matched to the use or consumption when it arises.

Investment Properties Interest in land and/or buildings, which are held for their

investment potential or rental income.

Levies A payment that a local authority is required to make to a

particular body. Levying bodies include national parks

authorities and passenger transport authorities.

Long term debtors

These debtors represent the income still to be received where sales of assets have taken place and deferred receipts, such as mortgages.

Minimum Revenue Provision

An amount, calculated in accordance with statutory guidance, charged to revenue for the repayment of debt.

Movement in Reserves Statement

Shows the movement in reserves held by the Council during the year.

National Non-Domestic Rates (NNDR)

The form of local taxation charged on non-residential premises at a level set by central Government. Rates are collected and paid into a central pool administered by central Government. The total collected is then redistributed to authorities on the basis of population.

Net Book Value

The amount of which fixed assets are included in the balance sheet, i.e. historical cost or current value less the cumulative amounts provided for depreciation and impairment.

Net Expenditure

Total expenditure less any income due to the council.

Net Realisable Value

The open market value of the asset in its existing use (or open market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

Non-Current Assets

Tangible assets that yield benefits to the local authority and the services it provides for a period of more than one year.

Surplus Assets

Fixed assets that are not directly occupied, used or consumed in the delivery of services. Examples are investment properties and assets that are surplus to requirements, pending sale or redevelopment.

Operating Leases

A lease that stipulates the asset can never become the property of the lessee. In essence, all leases that do not meet the definition of a finance lease are accounted for as operating leases.

**Operational Assets** 

Are fixed assets held and occupied, used or consumed by a local authority in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Past Service Cost

For a defined benefit scheme, the increase in the value of benefits payable that was earned in prior years arising because of improvements to retirement benefits.

Post Balance Sheet Events

These events, both favourable and unfavourable, which occur between the balance sheet date and the date on which the statement of accounts is signed.

Precept

A charge made on the collection fund by non-billing authorities such as the Greater London Authority, to finance its net expenditure.

Prior Year Adjustment

A material adjustment applicable to prior years arising from changes in accounting policies or from changes the correction of fundamental errors.

Private Finance Initiative (PFI)

Started in 1997/98, PFI offers a form of Private-Public Partnership in which local authorities do not buy assets but rather pay for the use of assets held by the private sector. As a result of changes in accounting conventions, assets acquired under a PFI scheme are now shown on the Balance Sheet.

Provision

An amount set aside for liabilities and losses which are likely to be incurred but where the exact amount and date on which it will arise is uncertain.

Rateable Value

The Valuation Office, (part of the Inland Revenue), assesses the rateable value of individual non-domestic properties. Business rate bills are set by multiplying the rateable value by the NNDR poundage set by the government for the year. (Domestic properties no longer have individual rateable values but are assigned to one of the eight valuation bands for council tax.

**Related Party Transaction** 

A related party transaction is the transfer of assets or liabilities or the performance of services by, to or for a related party irrespective of whether a charge is made. Members and senior Officers of the Council are required to declare if they have entered into any such transactions and any relationships of significant influence with any organisations associated with the Council.

Reserves

An amount set-aside for a specific purpose in one financial year and carried forward to meet expenditure in future years.

Revaluation Reserve

A new reserve established to record unrealised net gains on the Council's fixed assets arising from revaluations made on or after 1 April 2007.

Revenue Balances

These reserves represent surplus balances which can be used in the future. Some reserves are set up to meet expenditure included in a particular account, such as the Housing Revenue Account.

Revenue Expenditure

Day-to-day payments on the running of council services such as salaries and wages, heating and lighting transport and charges for the use of assets.

Revenue Support Grant (RSG)

A general grant paid by central government to a local authority towards the cost of its services which is distributed as part of Formula Grant.

Service Level Agreements

Service level agreements are written agreements between council support service users and providers. Each service level agreement specifies the support service to be provided its timing and frequency, the charge to be made for it and the period for which the agreement will run.

The accounts, which summarise the revenue transactions of those services operating on a "trading" basis which, are financed by charges made to recipients of the services.

A payment made by one pension scheme to another when a member changes employment to enable the receiving pension scheme to give benefits for service in the paying pension scheme.

The eight bands for Council Tax as specified in the Local Government Finance Act 1992. The band proportions are expressed in ninths and are specified in the Local Government Finance Act 1992 as A-6, B-7, C-8, D-9, E-11, F-13, G-15, and H-18 with band D acting as the 'standard' band. This means that Band A is 6/9ths of Band D, and so on.

**Trading Accounts** 

Transfer Value

Valuation Band
