ROUND 3 / 2022

# Health and Wellbeing

Health and wellbeing is a multifaceted term that describes the healthy, contented and prosperous condition we all aspire to.

This is a broad theme supporting and contributing to an individual's health and wellbeing. This includes mental and emotional health, physical health and a healthy lifestyle.

It also has important social benefits on educational attainment, economic productivity, social and family relationships, social cohesion and overall quality of life across the entire population.

Wellgate Community Farm exists as a focus for community, creating an opportunity for people to grow, make a positive contribution and promote social cohesion.

Builds cohesion in the community	Bring local people of all ages and abilities together for the shared purpose of looking after the animals. Service users meet those they wouldn't normally mix with, learn about each other
Creates volunteering opportunities for local people	Volunteering starts at 8 years old with our Young Farmers club and we have no upper age limit. We are currently running a Jack Petchey funded project for holiday volunteering place for 11 to 17 year olds, and are looking for continuation funding for a volunteering project for 18 to 30 year olds who are NEET.

# Inclusion and Diversity

Inclusion is about how well the contributions, presence and perspectives of different groups of people are valued and integrated into an environment. Diversity is about representation or the make-up of an entity.

This is a broad theme supporting and contributing to the involvement of all people in the community regardless of their make-up and how we create a culture where diversity can thrive.

When people feel included, they are better able to contribute to the group and their society without fear of being ostracised. By bringing their ideas forward, they are offering a particular perspective, which stems from a completely different background
