

Statement of Reasons:

Promoting, facilitating and maintaining safe routes to school is essential, and following representation from Eastbury Community School and the documented Community Support on their concerns regarding the lack of a safe crossing provision for pupils and parents on Rosslyn Road, new zebra crossing provisions are required to promote pedestrian priority, reduce pedestrian and vehicle conflicts and maintain Road Safety for the community as a whole.

Rosslyn Road is a 20mph traffic calmed residential road, however the traffic demands on Rosslyn Road are increasing, creating further challenges for parents and pupils accessing the school. These provisions will benefit school pupils and wider community movements as a whole and a vital tool in maintaining the safety of all our road users.
