

Risk Assessment Covid-19

Abbey Nursery – Premises / Building related

This example risk assessment template is not exhaustive and should be used as a guide by Duty Holders / Principal Occupiers / Nominated Building Manager to support COVID-19 risk management controls for each building you have responsibility for (as set out within the [Building Duty Holder List](#)) to support safe occupation of the premises.

Note: This assessment is specific to the safe management of the premises / building and will support safe services to be delivered by controlling premises/building related COVID-19 Risks. This assessment is required in addition to the Covid-19 Risk Assessments which are required to be completed for operational service areas.

You must ensure robust arrangements are in place to control the risks if adopting any part of this assessment for the buildings which you have nominated responsibility. It is important this assessment and proposed action is consulted with your team. In addition, please ensure that this assessment is made available to service managers, employees or their representatives on request. There may be a need to revise arrangements to meet a particular service or individual need. This would be based on a discussion with the relevant service manager of the employee. **Please record and highlight your additional risk control measures / adaptations you have made for your individual buildings**

Step 1: Identify the hazards. **Step 2:** Decide who might be harmed and how. **Step 3:** Evaluate the **risks** and decide on precautions. **Step 4:** Record your findings and implement them. **Step 5:** Review your **assessment** periodically and where there have been significant changes or any learning from accidents / incidents or work-related ill health. Risks should be reduced to as low as reasonably practicable.

When managing hazards and risks, the Hierarchy of Controls must be applied (working top down):

- **Elimination**
The hazard, task or activity is physically removed or abandoned (e.g. avoiding contact with anyone with symptoms)
- **Substitution**
Replace a material or process with a less hazardous one
- **Engineering Controls**
Isolate staff, contractors, visitors, public from the hazard (demarcation, physical barriers)
- **Administrative Controls**
Identify and implement procedures to maximise safe working (management of social distancing, hygiene protocols)
- **Personal Protective Equipment (PPE)**
Only to be considered if measures above would be ineffective to control risks.

PPE Guidance: There are very few workplaces where additional PPE is required to protect from the risks of coronavirus. The main controls to protect people are through social distancing, good hygiene (frequent cleaning and handwashing), ventilation, working in fixed teams or partnering, and not through the use of PPE. Supplies of PPE, including face masks, should continue to be reserved for those who need PPE to protect against workplace risks, such as people exposed to dust and fume hazards as well as healthcare workers.

If you have any COVID-19 PPE requirements, please discuss this with the Health and Safety team during the review of your Risk Assessment. **Appendix 1** contains a PPE template and a process for you to order PPE and building related items should they be needed.

Important note:

This risk assessment must be read and worked through in conjunction with current Government guidelines applicable to Working Safely During Coronavirus (COVID-19) and other relevant industry specific guidance to include:

[Covid-19 guidance for the safe use of council buildings](#)

<https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19>

You must follow the councils **Buildings** COVID-19 Risk Assessment Process for approval of your Risk Assessment, which can be found [here](#). Once your COVID-19 Risk Assessment has been approved, it is your responsibility to review the Risk Assessment monthly or before if there is a significant change.

Managing the risks to employees in the clinically extremely vulnerable “shielded”/ clinically vulnerable groups or other vulnerable people will normally be considered as part of the operational services' COVID-19 risk assessments. Building Duty Holders / Principal Occupiers will need to consider making reasonable adjustments for employees (if contacted by an individual's manager), or service users who may be of increased risk of contracting COVID-19. This may include additional support to access and/or leave the building safely e.g. if they have mobility or hearing or sight impairments etc, or to access soap dispensers and toilet facilities.

How to use:

There are mandatory fields (in black text) that are required to stay in your risk assessment. There are also fields that may or may not apply to your buildings (in grey text). These grey sections may apply now or may apply in the future then the grey sections would have to be reviewed for possible inclusion at that time. **Each greyed out point must be fully considered and where applicable to your building, this would be demonstrated by turning the grey text into black text.** It is expected that all relevant suggested controls have been fully implemented where they apply to your work activity / service area. If a control is not relevant and does not apply, please leave it in place as grey text.

Do not just copy this example, as that may not satisfy the law and may not protect your employees and visitors. You must think about specific hazards and controls relevant to your buildings. At the bottom of most sections of the Risk Assessment, there is space under the heading 'Please add any additional specific arrangements applicable to your building' for you to add items which are specific to your buildings.

Please 'save as' a copy of this template and apply it to your building. Refer back to the main template when carrying out any reviews of your risk assessment to ensure you have considered any changes to COVID-19 related legislation and guidance.

To support managers prior to the development and completion of COVID-19 Risk Assessments, a COVID-19 Risk Assessment skills session should be undertaken. To book yourself on [Please click here](#).

Risk Assessment Covid-19

Premises / Building	Abbey Nursery
Duty Holder / Principal Occupier	
Site responsible manager	
Assessor(s) including employee representative	
Date of assessment	05.10.2020
Nominated responsible person monthly review date	05.11.2020

Key	
	Social Distancing to minimise potential spread of COVID-19
	Hygiene protocols to minimise potential spread of COVID-19
	Additional considerations to manage and control risk

Resultant Risk Rating	
Please tick	
High	
Medium	✓
Low (normal)	

Risk rating to be applied following implementation of control measures. Select a risk rating to reflect the overall risk once control measures are in place. You are aiming to ensure that the risk is as low as reasonably practicable (ALARP)

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
1. Minimising the risk of coronavirus transmission	<p>Staff, contractors, service users, visitors, public,</p> <p>Possible transmission of the virus from person to person and into the wider community.</p> <p>People can catch the virus from others who are infected in the following ways:</p> <ul style="list-style-type: none"> the virus moves from person-to-person in droplets from the nose or mouth spread when a person with the virus coughs or exhales the virus can survive for up to 72 hours out of the body 	<p></p> <p>The council is making every reasonable effort to enable working from home as a first option. Where working from home is not possible, the council will make every reasonable effort to comply with the social distancing guidelines set out by the government (2m, or 1m with risk mitigation where 2m is not viable)</p> <p>If staff choose to wear face coverings at work, this position is supported by the council. Face coverings are not classed as PPE. They are not manufactured to a standard and don't provide a proven level of protection for work risks such as dust and spray in an industrial context. It is important to use face coverings properly and wash your hands before putting them on and taking them off. Instructions on wearing a face covering and making your own can be found here</p>	As from 08.08.20, face masks must be worn in all public buildings including libraries/children's centres/Abbey nursery. Guidance taken from Corporate Health & Safety Team and email circulated to		08.08.20	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
Covid-19 Outbreaks on site	<p>on surfaces which people have coughed on, etc</p> <ul style="list-style-type: none"> • people can pick up the virus by breathing in the droplets or by touching contaminated surfaces and then touching their eyes, nose or mouth • Exposure to the virus may result in mild or moderate symptoms (e.g. coughing, fever or change to your sense of smell or taste) or more severe symptoms include pneumonia in both lungs which can lead to death 	<p>In case of an outbreak (please see definitions below), contact the local Public health team and PHE London Coronavirus Response Cell (LCRC) as below: (For all settings)</p> <p>Contact Local PH team</p> <p>They will</p> <ul style="list-style-type: none"> • Respond to your enquiries • Give advice if there are suspected coronavirus cases (i.e. before test result back) • Gives ongoing support to settings managing outbreaks <p>Contact PHE (LCRC) on 0300 303 0450</p> <p>They will</p> <ul style="list-style-type: none"> • Give initial advice when there is a person with confirmed coronavirus in a high-risk setting • Want organisations to notify them of all confirmed (test positive) cases in high risk local settings (Notifications to be made via LCRC@phe.gov.uk or call 03003030450) • If PHE confirm that there is an outbreak in any setting, they will still: <ul style="list-style-type: none"> ○ Support setting to complete a risk assessment ○ Run through infection prevention and control check list ○ Support with communications, if needed ○ Alert local authority public health team who will provide ongoing support. ○ Establish a multi-agency incident management team (if required) <p>Undertake a Risk Assessment (i.e Practical actions for businesses to take based on 5 main steps , https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/5-steps-to-working-safely)</p> <p>Where settings are observing guidance on COVID-19: infection prevention and control (IPC) , which will reduce risk of</p>	<p>all managers to inform of upcoming change of policy.</p> <p>Liaising with BDTP to ensure cleaning staff are aware of change in guidelines and that they have adequate supplies to deal with any discarded masks or other PPE that may be left in, around or outside the building</p>		07.08.20	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<p>transmission, closure of the whole setting will not generally be necessary.</p>  <p>Outbreak definition as follows. COVID-19 Cluster and Outbreak Definitions.</p> <p>Cluster definition: Two or more confirmed cases of COVID-19 employees in a building within 14 days OR Increase in the background rate of absence due to suspected or confirmed cases of COVID-19 (does not include absence rate due to individuals shielding or self-isolating as contacts of cases).</p> <p>Outbreak definition: Two or more confirmed cases of COVID-19 among employees who are direct close contacts, proximity contacts or in the same cohort/team in the building within 14 days.</p> <p>*a cohort might be a team or a group within the setting who sit and work together. This definition aims to distinguish between transmission occurring in the community verses transmission occurring within the setting.</p>				
2. Contacting Tracing	<p>Staff, contractors, service users, visitors, public,</p> <p>(Risk - As set out in section 1)</p> <p>The opening up of the economy following the COVID-19 outbreak is being supported by NHS Test and Trace. You should assist this service by keeping a</p>	<p>This guidance applies to buildings that provides an on-site service and to any events that take place on its premises.</p> <p>By maintaining records of staff, customers and visitors for 21 days, and sharing these with NHS Test and Trace where requested, you can help identify people who may have been exposed to the virus. Containing outbreaks early is crucial to reduce the spread of COVID-19, protect the NHS and social care sector, and save lives.</p> <p>Recording both arrival and departure times (or estimated departure times) will help reduce the number of customers or</p>

	<p>temporary record of your visitors and or customers for 21 days, in a way that is manageable for your business, and assist NHS Test and Trace with requests for that data if needed. This could help contain clusters or outbreaks.</p>	<p>staff needing to be contacted by NHS Test and Trace. It is recognised by the government, however, that recording departure times will not always be practicable.</p> <p>The following information should be collected by the building manager, where possible:</p> <p>Customers/Visitors</p> <ul style="list-style-type: none"> ○ customers and visitors (if unknown by the service i.e. not a registered contact or service user where these details would already be available) ○ the name of the customer or visitor. If there is more than one person, then you can record the name of the 'lead member' of the group and the number of people in the group ○ a contact phone number for each customer or visitor, or for the lead member of a group of people ○ date of visit, arrival time and, where possible, departure time ○ if a customer will interact with only one member of staff, the name of the assigned staff member should be recorded alongside the name of the customer <p>Staff</p> <p>A record of staff who were 'on site 'would normally be available via standard operational practices, systems and protocols.</p> <p>Information required by NHS track and Trace would consist of</p> <ul style="list-style-type: none"> ○ the names of staff who work at the premises ○ a contact phone number for each member of staff ○ the dates and times that staff are at work 	<p>Nursery manager to secure signing-in sheet and to set a reminder in their</p>		<p>03.08.20</p>	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<p>Note: This information can be collated via staff rota's and additionally by contacting the council's security team for access control records.</p> <ul style="list-style-type: none"> ○ No additional data should be collected for this purpose. ○ Data to be held securely and destroyed after 21 days. <p>To access Privacy Notice to be displayed at reception areas and the protocol to be followed please click here</p> <p>Although this is voluntary, please encourage customers and visitors to share their details in order to support NHS Test and Trace and advise them that this information will only be used where necessary to help stop the spread of COVID-19.</p> <p>If a customer or visitor informs you that they do not want their details shared for the purposes of NHS Test and Trace, they can choose to opt out, and if they do so you should not share their information used for booking purposes with NHS Test and Trace.</p> <p>The accuracy of the information provided will be the responsibility of the individual who provides it. You do not have to verify an individual's identity for NHS Test and Trace purposes.</p> <ul style="list-style-type: none"> ● Confirmation that (where applicable) contact trace system in place, staff informed of protocol to be followed. <p><i>Please add any additional specific arrangements applicable to your building.</i></p>	<p>calendar to destroy the signing sheet after 21 days</p> <p>Display LBBB Protocol NHS Contact Tracing and Privacy Notice Test and Trace at reception</p>		30.07.20	
3. Pre-visit Communication strategy (communication to Customers/	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	 <p>Protocol in place and includes:</p>				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
contractors/ visitors etc)		<ul style="list-style-type: none"> • Working safely during coronavirus COVID-19 offices-and-contact-centres • Communication arrangements in place to ensure both staff and visitors who feel unwell stay at home and do not attend the premises. • Encouraging visits via remote connection/working where this is an option. • Contractors provide assurance that they are operating a COVID-19 Secure service • Informing visitors that they should be prepared to remove face coverings if asked to do so by police officers and staff for the purposes of identification. • Weekly information telephone calls to parents to be circulated to all providing updates on latest guidance including health & safety arrangements. • Provision of guidance on social distancing and hygiene to people on arrival, for example, signage or visual aids and before arrival, for example, by phone, on the website or by email. Consider the particular needs of those with protected characteristics, such as those who are hearing or visually impaired. • Agreed arrangements for council services reoccupation with service managers – (number of staff proposed to be present at any one time and agreed to ensure safe occupancy levels / welfare arrangements) • Sanitisation / social distancing protocols to be observed when onsite • Limiting visitor times to a specific time window and restricting access to required visitors only. • Determine if schedules for essential services and contractor visits can be revised to reduce interaction and overlap between people, for example, carrying out services at night. • Staff /Customers / contractors advised to follow guidance below: COVID-19: guidance for households with possible coronavirus infection guidance 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Increased frequency of surface cleaning arrangements in place • Increased frequency of handwashing/sanitiser to maintain personal hygiene. <div style="border: 1px solid black; width: 20px; height: 20px; display: flex; align-items: center; justify-content: center; margin: 5px 0;">+</div> <ul style="list-style-type: none"> • Contents of risk assessment shared with staff and contractors <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
<p>4. Reoccupation of operational buildings - areas which have not been in use / full use during lockdown period</p>	<p>Staff, contractors, service users, visitors, public,</p> <p>Due to some or all parts of the premises not being used for a period of time, inspection and testing of building services and safety devices to ensure they are in full working order is required.</p>	<div style="border: 1px solid black; width: 20px; height: 20px; display: flex; align-items: center; justify-content: center; margin-bottom: 5px;">+</div> <ul style="list-style-type: none"> • Visual inspection of the work area that you are going to occupy/ responsible for premises to identify and remedy health and safety hazards, particularly in any areas that may have been non-occupied due to lockdown • Building services maintained in accordance with the LBBB 'Duty Holder Support Pack' including: • Maintenance checks of plant and equipment undertaken – including kitchen equipment. • Fire alarms and systems checked and operational including: <ul style="list-style-type: none"> ○ Fire alarm panel status green ○ Fire call points operational ○ Emergency lighting operational ○ Firefighting measures e.g. fire extinguishers, blankets all present and maintained • Gas systems maintained • Water flushing of little used outlets undertaken to minimise risk of legionella and checks/maintenance undertaken/up to date on hot and cold-water systems (and pools) in accordance with Legionella water risk assessment. Every tap (hot and cold) should be run for minimum of 2 minutes in all areas of the premises which have not been used during lockdown period • Electrical equipment and systems maintained • Electrical gate systems maintained • Lifts and lifting equipment/hoists maintained 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Ventilation / air conditioning / extraction systems maintained if using a central ventilation system that removes and circulates airs to different rooms, it is recommended that you turn of re-circulation and use a fresh air supply • Asbestos management arrangements in place • Boiler room plant inspected / maintained • Identify and remedy possible vermin infestations <p>Confirmation that safe arrangement are in place with any shared landlord/ Duty Holders of a premises must be confirmed.</p> <p><i>Please add any additional specific arrangements applicable to your service / work setting.</i></p>				
5. On entry to buildings	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	 <p>Measures taken to control COVID-19 are accessible to all staff and visitors including people with disabilities. E.g. hand washing / sanitiser stations are accessible to wheelchair users, notices are read to visually impaired people where identified or upon request.</p> <p>Use simple, clear messaging to explain guidelines using images and clear language, with consideration of groups for which English may not be their first language and those with protected characteristics such as visual impairments.</p> <p>Notices for display can be found under 'Resources'. https://lbbd.sharepoint.com/sites/IntTp/HR/Pages/Risk-Assessment---COVID-19-.aspx</p> <p>(Managers are responsible for ensuring safety information is explained and understood to their relevant team members where a need is identified)</p> 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Notices displayed advising visitors should not enter the building if they have symptoms of COVID-19 • Informing visitors that they should be prepared to remove face coverings if asked to do so by police officers and staff for the purposes of identification. • Pictorial social distancing notices displayed at all entry points to the building (including disabled access entry points) • 2-meter demarcation on building entry approaches • Staggered start times • Controlled entry to building / Limiting the number of visitors at any one time. • Supervising of entry to building to follow social distancing guidelines • Established host responsibilities relating to COVID-19 and providing any necessary training for people who act as hosts for visitors. • Revised entry and exit routes for staff, visitors and contractors to minimise contact with other people. • Two entrances for day care and term time children • Provision of additional parking or facilities such as bike racks to help people walk, run, or cycle to work where possible. <div style="text-align: center; margin: 10px 0;">  </div> <ul style="list-style-type: none"> • Hand sanitiser stations located at entry points to the building • Hand washing / sanitisation stations (ideally soap and water to minimise possible adverse dermatological effects) at point of entry to building. All people entering the building must sanitise hands prior to entry. (20 seconds minimum recommended) • Enhance cleaning frequency of regular touched items including handles on doors, rails, dispensers and water coolers • Maintaining use of security access devices, such as keypads or passes, and adjusting processes at entry/exit points to reduce risk of transmission. For example, cleaning pass 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<p>readers regularly and asking staff to hold their passes next to pass readers rather than touching them.</p> <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
6. Reception areas	<p>Staff, contractors, service users, visitors, public,</p> <p>(Risk - As set out in section 1)</p>	 <ul style="list-style-type: none"> • Telephone appointments/emails to office where possible to minimise face to face contact • Screens fitted to reception area desks • Workstation set up to allow social distancing of staff • Notices displayed advising visitors should not enter the building if they have symptoms of COVID-19 • Demarcation to maintain safe distancing 2 metre floor markings, including for possible queues • spacing of desks, • Activity / interactions with customers kept as short as possible • Pictorial social distancing notices displayed at all entry points to the building (including disabled access entry points) • 2-meter demarcation on building entry approaches • One-way flow system at entry and exit points. • Controlled / staggered entry to building • Additional entrances available to minimise congestion at peak times <ul style="list-style-type: none"> • Seating areas revised to ensure 2m social distancing • Supervising of entry to building to follow social distancing guidelines • Less children attending nursery and midwifery clinic once a week, this is done through booked appointments for all customers 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Provision of hand washing stations (ideally soap and water at point of entry to building. If not practicable hand sanitiser to be used (next bullet point) • Provision of hand sanitiser stations located at entry / exit points to the building • Notice displayed to sanitise hands • Increased natural ventilation where practicable • Enhance cleaning frequency of regularly touched items including handles on doors, rails, dispensers, and water coolers, IT equipment, pens, telephones • Sharing of items discouraged for example avoiding sharing pens, documents, and other objects. • Shared items to be wiped/sanitised prior to next use • Catch it, bin it, kill it posters displayed • Staff provided with guidance on hygiene protocols to eliminate cross-infection risks. • Staff to use PPE (gloves) when handling deliveries. • Items to be sanitised via antibacterial wipes/spray prior to delivery to staff • Staff cleaning would be in line with: • Working-safely-during-covid-19/offices-and-contact-centres offices • Provision of closed top bins available for disposal of face coverings and other PPE which may be worn. Face coverings are not recyclable at present and should not be placed in recycle bins. Further guidance can be found here • https://www.gov.uk/guidance/coronavirus-covid-19-disposing-of-waste <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
7. Lifts	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	 <p>There is no lift.</p> <ul style="list-style-type: none"> • Buildings procedure in place for control of access/egress and use of lifts • Working patterns amended, reducing the number of people on site and the numbers needing to use a lift at any one time. 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> Staggered entry / exit times  <ul style="list-style-type: none"> Demarcation to allow social distancing on access/egress Notice displayed to avoid lift use where possible - people who are able are encouraged to use the stairs. Reduced maximum occupancy - disabled people given priority. Single person travel, if the risk assessment identifies that only one person at a time can use the lift. Where it is identified in the risk assessment that a lift can carry more than one person, passengers using lift must face the sides of the lift car with their backs towards other passengers. Demarcation in lifts in line with guidance/working-safely-during-coronavirus-covid-19/offices-and-contact-centres#offices-3-2 <p>Example images – if risk assessment identifies single travel is not possible / practical</p>   <ul style="list-style-type: none"> Increased hygiene protocols introduced, to include regular cleaning and sanitation of lift controls and the passenger car and placing hand sanitiser near lift controls/push buttons with signs encouraging staff to use it. Hand Sanitiser stations located by lift call points Catch it, bin it, kill it posters displayed

		<ul style="list-style-type: none"> handwashing facilities for staff handling goods and merchandise and provision of hand sanitiser where this is not practical. Considering methods to reduce frequency of deliveries, for example by ordering larger quantities less often. Staff wear disposable gloved to handle deliveries Cleaning procedures for goods and merchandise entering the site. <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
20. Buildings with Cafes	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	<p>No café.</p> <p>Cafes inside of council buildings are permitted to open but should take account of the guidance below in order to reopen these functions safely when permitted:</p> <ul style="list-style-type: none"> COVID-19: Guidance for the safe use of multi-purpose community facilities <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
21. Someone becomes unwell	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	 <p>Protocol developed in line with Government Guidance to include:</p> <ul style="list-style-type: none"> First-aid procedure and arrangements in place. If anyone becomes unwell with a new, continuous cough or a high temperature loss of taste / smell across the service, they must be sent home and advised to follow the COVID-19: guidance for households with possible coronavirus infection guidance. If a person is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a 	Discuss in team meetings and 121s Duty manager on site to ensure legal requirements are met daily		On-going Daily Daily	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<p>closed door. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <ul style="list-style-type: none"> • If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else. • In an emergency, call 999 if they are seriously ill or injured or their life is at risk. Do not visit the GP, pharmacy, urgent care centre or a hospital. • If a member of staff has helped someone who was unwell with a new, continuous cough, a high temperature, loss of taste or smell they do not need to go home unless they develop symptoms themselves (and in which case, a test is available) or the person subsequently tests positive (Close contact generally refers to being within 2 metres for more than 15 minutes). • If you have been in close contact with someone who is being tested for COVID-19, but they do not yet have a test result: Current advice states that at this stage, you do not need to self-isolate. You should take extra care in practising social distancing and good hand and respiratory hygiene. Contacts of people who have tested positive for COVID-19 infection who need to self-isolate will be notified accordingly by the NHS Test and Trace service. If you have not been notified, this means you do not need to self-isolate. • They should wash their hands thoroughly for 20 seconds after any contact with someone who is unwell. Cleaning the affected area with normal household disinfectant after someone with symptoms has left will reduce the risk of passing the infection on to other people. See COVID-19: cleaning of non-healthcare settings guidance • Staff cleaning would be in line with: https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/offices-and-contact-centres#offices-5-2 	<p>Practitioner have been made aware that they must come to nursery in clean clothes at the start of the shift</p> <p>Parents have also been informed that children must attend in clean clothes as stated in policy. Parents will be challenged if required.</p>		Daily

26. Behaviour of staff Behaviour of the public	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1) Acts of violence towards Staff include but are not limited to; Verbal aggression, Physical aggression, Threatening and intimidating behaviour.	 <ul style="list-style-type: none"> Staff code of conduct applies in these times of Covid-19 and staff are expected to maintain social distancing and hygiene protocols at all times Visitors to buildings are expected to follow social distancing and hygiene protocols. If staff feel threatened or intimidated, they must follow their usual V&A procedures and retreat to a secure area if required. The mantra 'If in doubt, get out' should be used when assessing situations <p><i>Please add any additional specific arrangements applicable to your service / work setting.</i></p>	<p>Raise in team meetings and 121s</p> <p>Check staff completed V&A training Duty manager on site to ensure legal requirements are met daily</p>		On-going 13.08.20 Daily	
27. Business Continuity	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1) Closure of premises, non-provision of service	 <ul style="list-style-type: none"> Business Continuity Plan reviewed to include COVID-19 related risks <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
28. Multi Use / Hired premises	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1)	 <p>Where buildings are shared with other businesses or hired on a sessional basis, the organisation must demonstrate they are operating as COVID secure. This would typically be via a COVID-19 Risk assessment for the activity.</p>	Partners to share their Covid risk assessments. Check they are operating as Covid secure		30.08.20	
29. Outside space and Equipment	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1)	<ul style="list-style-type: none"> Use outside space as much as possible throughout the day. Revise routine. Use outside for exercise but no equipment to be used unless thoroughly cleaned between groups of pupils. Follow COVID-19: cleaning of non-healthcare settings 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
	Closure of premises, non-provision of service	<ul style="list-style-type: none"> • Remove resources that cannot be easily be washed. • Reduce the number of resources. • Remove unnecessary items from play spaces and other learning environments where there is space to store it elsewhere. Rearrange play space. • We clean play equipment between groups of children using it. • Ensure multiple groups do not use play equipment simultaneously. • Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts). • Reduce the sharing of toys. • Limit the amount of shared resources that are taken home and limit exchange of take-home resources between children and staff. • Try to prevent the sharing of stationery and other equipment where possible. Shared materials and surfaces to be cleaned and disinfected more frequently. 				
30. Reducing Number of children Groups of children		<ul style="list-style-type: none"> • A temporary 'cap' on numbers of children attending the setting to ensure safety. Less children in the space will make social distancing easier. Day care no more than 30 each session, Term time no more than 16 each session. These numbers will be adopted if staffing permits and reviewed • https://www.gov.uk/government/publications/actions-for-educational-and-childcare-settings-to-prepare-for-wider-opening-from-1-june-2020/actions-for-education-and-childcare-settings-to-prepare-for-wider-opening-from-1-june-2020 • Contact LBBB Early Years & Childcare for advice. Review number of available staff, children to attend and adherence to EYFS ratios. • Parents will be asked to queue 2 meters apart, when dropping off and collecting their children from nursery, parents are asked where possible to attend after 9am. If this cannot be followed, then we will be allocating drop off and collecting slots to each child. • All children will be collected by 5:30 and no later. 	<p>Duty manager on site to ensure legal requirements are met daily</p> <p>Before children return to nursery parents to be sent email with changes to policy and procedure. This will also include the protocol for arrival and departures</p>		<p>Daily</p> <p>As required</p>	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Plan parents' drop-off and pick-up protocols that minimise adult to adult contact. • Children to be handed over to a member of staff at the door • Nursery will be organising family style grouping to reduce access to other parts of setting, staff, and children. Siblings will be together. • We may have to reduce the attendance times for different groups, which is determined as required. • Group by key group, friendship, days attended, ratio etc. Group to play & eat with set staff as much as possible. • Keep group together including staff assigned to a specific group– no mixing through the day. • Allocated times to access the outside area will be provided for each room • Avoid larger groups of children mixing. • Set aside specific space in setting for each group to play. • Set aside space and time for toy washing and surfaces • Contact local authority if unable to achieve these small groups. • Separate entrance for term-time children. Areas are marked out. Parents will be asked to queue 2 meters apart, when dropping off and collecting their children from nursery, parents are asked where possible to attend after 9am. If this cannot be followed, then we will be allocating drop off and collecting slots to each child. 				
Other?		<i>Please add any additional specific arrangements applicable to your building.</i>				

It is important you discuss your assessment and proposed action with employees and their representatives. A risk assessment is only effective if you and your employees act on it. You must follow through with any actions required and review it on a regular basis. You should review your risk assessment if you think it may no longer be valid e.g. following an accident/incident, or if there are significant changes to the hazards in your workplace, such as new equipment or work activities. You should consider, at a minimum, an annual review of your assessment. Risk assessment guidance is available for further information and advice on carrying out a risk assessment

Appendix 1

PPE Risk Assessment Template – PPE Request

Once the risk assessment has been completed in consultation with the Corporate Health and Safety team, your employees, Trade Union Partners and has been signed off by the Workforce Governance Group or CEX/DCEX as being COVID-19 secure, please fill out the below to summarise the service's need for PPE outlined in the assessment. Once completed, and agreed, please send to Rhys.Clyne@lbbd.gov.uk and Will.Donovan@lbbd.gov.uk. If you have any identified need for PPE beyond the items outlined below please notify Rhys and Will as soon as possible, as it may be necessary to establish a new supply chain for additional items which have not been routinely stocked.

Please state all items as numbers of items required, not numbers of boxes as box sizes for masks, gloves and aprons can vary.

Please note that this form should cover **only** PPE directly relating to preventing the spread of coronavirus. The service's usual PPE requirements (ie: items which were standard before March 2020) should continue to be ordered through the usual supply routes as per the Council's procurement contracts. If suppliers are not able to fulfil the needs of the service please contact Edna.Amolo@lbbd.gov.uk from Procurement who will follow up with contracted suppliers.

Please indicate when first month's supply PPE is required by here:

Regular, monthly PPE need

	Surgical masks	FFP3 masks	Pairs of gloves				Disposable suits	Disposable aprons	Full face shields	Goggles	Hand sanitiser (bottles)		Anti-bac wipes packs
			S	M	L	XL					100ml	500ml	
Number of units	50	0	20	80	20	10	0	15	6	0	20	10	50

Please note that FFP3 masks are only required in very specific applications and may not provide adequate protection unless used alongside additional equipment such as a full-face shields or safety goggles.

Fixed PPE need for your workplace

Check with the Building Manager/ Duty Holder for any building related requirements you may have, such as screens, signs, tape and fixed sanitiser may have been ordered/covered.

Type of equipment	Numbers and Sizes	Comments
Perspex screens	1	
Fixed wall sanitiser unit	6	
Floor standing sanitiser unit	0	
Social distance signs	20	
Hand hygiene signs	20	
Catch it, bin it, kill it signs	20	
Social distancing tape	20	
Other (specify)
