

Risk Assessment Covid-19

Alibon Annex – Premises / Building related

This example risk assessment template is not exhaustive and should be used as a guide by Duty Holders / Principal Occupiers / Nominated Building Manager to support COVID-19 risk management controls for each building you have responsibility for (as set out within the [Building Duty Holder List](#)) to support safe occupation of the premises.

Note: This assessment is specific to the safe management of the premises / building and will support safe services to be delivered by controlling premises/building related COVID-19 Risks. This assessment is required in addition to the Covid-19 Risk Assessments which are required to be completed for operational service areas.

You must ensure robust arrangements are in place to control the risks if adopting any part of this assessment for the buildings which you have nominated responsibility. It is important this assessment and proposed action is consulted with your team. In addition, please ensure that this assessment is made available to service managers, employees or their representatives on request. There may be a need to revise arrangements to meet a particular service or individual need. This would be based on a discussion with the relevant service manager of the employee. **Please record and highlight your additional risk control measures / adaptations you have made for your individual buildings.**

Step 1: Identify the hazards. **Step 2:** Decide who might be harmed and how. **Step 3:** Evaluate the **risks** and decide on precautions. **Step 4:** Record your findings and implement them. **Step 5:** Review your **assessment** periodically and where there have been significant changes or any learning from accidents / incidents or work-related ill health. Risks should be reduced to as low as reasonably practicable.

When managing hazards and risks, the Hierarchy of Controls must be applied (working top down):

- **Elimination**
The hazard, task or activity is physically removed or abandoned (e.g. avoiding contact with anyone with symptoms)
- **Substitution**
Replace a material or process with a less hazardous one
- **Engineering Controls**
Isolate staff, contractors, visitors, public from the hazard (demarcation, physical barriers)
- **Administrative Controls**
Identify and implement procedures to maximise safe working (management of social distancing, hygiene protocols)
- **Personal Protective Equipment (PPE)**
Only to be considered if measures above would be ineffective to control risks.

PPE Guidance: There are very few workplaces where additional PPE is required to protect from the risks of coronavirus. The main controls to protect people are through social distancing, good hygiene (frequent cleaning and handwashing), ventilation, working in fixed teams or partnering, and not through the use of PPE. Supplies of PPE, including face masks, should continue to be reserved for those who need PPE to protect against workplace risks, such as people exposed to dust and fume hazards as well as healthcare workers.

If you have any COVID-19 PPE requirements, please discuss this with the Health and Safety team during the review of your Risk Assessment. **Appendix 1** contains a PPE template and a process for you to order PPE and building related items should they be needed.

Important note:

This risk assessment must be read and worked through in conjunction with current Government guidelines applicable to Working Safely During Coronavirus (COVID-19) and other relevant industry specific guidance to include:

[Covid-19 guidance for the safe use of council buildings](#)

<https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19>

You must follow the councils **Buildings** COVID-19 Risk Assessment Process for approval of your Risk Assessment, which can be found [here](#). Once your COVID-19 Risk Assessment has been approved, it is your responsibility to review the Risk Assessment monthly or before if there is a significant change.

Managing the risks to employees in the clinically extremely vulnerable “shielded”/ clinically vulnerable groups or other vulnerable people will normally be considered as part of the operational services' COVID-19 risk assessments. Building Duty Holders / Principal Occupiers will need to consider making reasonable adjustments for employees (if contacted by an individual's manager), or service users who may be of increased risk of contracting COVID-19. This may include additional support to access and/or leave the building safely e.g. if they have mobility or hearing or sight impairments etc, or to access soap dispensers and toilet facilities.

How to use:

There are mandatory fields (in black text) that are required to stay in your risk assessment. There are also fields that may or may not apply to your buildings (in grey text). These grey sections may apply now or may apply in the future then the grey sections would have to be reviewed for possible inclusion at that time. **Each greyed out point must be fully considered and where applicable to your building, this would be demonstrated by turning the grey text into black text.** It is expected that all relevant suggested controls have been fully implemented where they apply to your work activity / service area. If a control is not relevant and does not apply, please leave it in place as grey text.

Do not just copy this example, as that may not satisfy the law and may not protect your employees and visitors. You must think about specific hazards and controls relevant to your buildings. At the bottom of most sections of the Risk Assessment, there is space under the heading 'Please add any additional specific arrangements applicable to your building' for you to add items which are specific to your buildings.

Please 'save as' a copy of this template and apply it to your building. Refer back to the main template when carrying out any reviews of your risk assessment to ensure you have considered any changes to COVID-19 related legislation and guidance.

To support managers prior to the development and completion of COVID-19 Risk Assessments, a COVID-19 Risk Assessment skills session should be undertaken. To book yourself on [Please click here](#).

Risk Assessment Covid-19

Premises / Building	Early Years Development Team (Teachers & EYDOs), Training Team, SEN Team, FIS Team, Childcare Team.
Duty Holder / Principal Occupier	
Site responsible manager	
Assessor(s) including employee representative	
Date of assessment	30 th October 2020
Nominated responsible person monthly review date	30 th November 2020

Key	
	Social Distancing to minimise potential spread of COVID-19
	Hygiene protocols to minimise potential spread of COVID-19
	Additional considerations to manage and control risk

Resultant Risk Rating Please tick	
High	
Medium	✓
Low (normal)	

Risk rating to be applied following implementation of control measures. Select a risk rating to reflect the overall risk once control measures are in place. You are aiming to ensure that the risk is as low as reasonably practicable (ALARP)

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
1. Minimising the risk of coronavirus transmission	<p>Staff, contractors, service users, visitors, public,</p> <p>Possible transmission of the virus from person to person and into the wider community.</p> <p>People can catch the virus from others who are infected in the following ways:</p> <ul style="list-style-type: none"> the virus moves from person-to-person in droplets from the nose or mouth spread when a person with the virus coughs or exhales the virus can survive for up to 72 hours out of the body 	<p></p> <p>The council is making every reasonable effort to enable working from home as a first option. Where working from home is not possible, the council will make every reasonable effort to comply with the social distancing guidelines set out by the government (2m, or 1m with risk mitigation where 2m is not viable)</p> <p>If staff choose to wear face coverings at work, this position is supported by the council. Face coverings are not classed as PPE. They are not manufactured to a standard and don't provide a proven level of protection for work risks such as dust and spray in an industrial context. It is important to use face coverings properly and wash your hands before putting them on and taking them off. Instructions on wearing a face covering and making your own can be found here</p>				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
Covid-19 Outbreaks on site	<p>on surfaces which people have coughed on, etc</p> <ul style="list-style-type: none"> • people can pick up the virus by breathing in the droplets or by touching contaminated surfaces and then touching their eyes, nose or mouth • Exposure to the virus may result in mild or moderate symptoms (e.g. coughing, fever or change to your sense of smell or taste) or more severe symptoms include pneumonia in both lungs which can lead to death 	<p>In case of an outbreak (please see definitions below), contact the local Public health team and PHE London Coronavirus Response Cell (LCRC) as below: (For all settings)</p> <p>Contact Local PH team</p> <p>They will</p> <ul style="list-style-type: none"> • Respond to your enquiries • Give advice if there are suspected coronavirus cases (i.e. before test result back) • Gives ongoing support to settings managing outbreaks <p>Contact PHE (LCRC) on 0300 303 0450</p> <p>They will</p> <ul style="list-style-type: none"> • Give initial advice when there is a person with confirmed coronavirus in a high-risk setting • Want organisations to notify them of all confirmed (test positive) cases in high risk local settings (Notifications to be made via LCRC@phe.gov.uk or call 03003030450) • If PHE confirm that there is an outbreak in any setting, they will still: <ul style="list-style-type: none"> ○ Support setting to complete a risk assessment ○ Run through infection prevention and control check list ○ Support with communications, if needed ○ Alert local authority public health team who will provide ongoing support. ○ Establish a multi-agency incident management team (if required) <p>Undertake a Risk Assessment (i.e Practical actions for businesses to take based on 5 main steps , https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/5-steps-to-working-safely)</p> <p>Where settings are observing guidance on COVID-19: infection prevention and control (IPC) , which will reduce risk of</p>

		<p>Note: This information can be collated via staff rota's and additionally by contacting the council's security team for access control records.</p> <ul style="list-style-type: none"> ○ No additional data should be collected for this purpose. ○ Data to be held securely and destroyed after 21 days. <p>To access Privacy Notice to be displayed at reception areas and the protocol to be followed please click here</p> <p>Although this is voluntary, please encourage customers and visitors to share their details in order to support NHS Test and Trace and advise them that this information will only be used where necessary to help stop the spread of COVID-19.</p> <p>If a customer or visitor informs you that they do not want their details shared for the purposes of NHS Test and Trace, they can choose to opt out, and if they do so you should not share their information used for booking purposes with NHS Test and Trace.</p> <p>The accuracy of the information provided will be the responsibility of the individual who provides it. You do not have to verify an individual's identity for NHS Test and Trace purposes.</p> <ul style="list-style-type: none"> ● Confirmation that (where applicable) contact trace system in place, staff informed of protocol to be followed. <p><i>Please add any additional specific arrangements applicable to your building.</i></p>	<p>necessary using a document kept on shared network area. Process to be created and shared</p>			
3. Pre-visit Communication strategy	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)					

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
(communication to Customers/ contractors/ visitors etc)		<p>Protocol in place and includes:</p> <ul style="list-style-type: none"> • Working safely during coronavirus COVID-19 offices-and-contact-centres • Communication arrangements in place to ensure both staff and visitors who feel unwell stay at home and do not attend the premises. • Encouraging visits via remote connection/working where this is an option. • Contractors provide assurance that they are operating a COVID-19 Secure service • Informing visitors that they should be prepared to remove face coverings if asked to do so by police officers and staff for the purposes of identification. • Provision of guidance on social distancing and hygiene to people on arrival, for example, signage or visual aids and before arrival, for example, by phone, on the website or by email. Consider the particular needs of those with protected characteristics, such as those who are hearing or visually impaired. • Agreed arrangements for council services reoccupation with service managers – (number of staff proposed to be present at any one time and agreed to ensure safe occupancy levels / welfare arrangements) • Sanitisation / social distancing protocols to be observed when onsite • Limiting visitor times to a specific time window and restricting access to required visitors only. • Determine if schedules for essential services and contractor visits can be revised to reduce interaction and overlap between people, for example, carrying out services at night. • Staff /Customers / contractors advised to follow guidance below: COVID-19: guidance for households with possible coronavirus infection guidance <p></p> <ul style="list-style-type: none"> • Increased frequency of surface cleaning arrangements in place 	<p>Contractors</p> <p>When contractors arrive, they will receive a guidance document on the specific measures in place within the building.</p> <p>Signage All relevant posters/signage need to be put up.</p> <p>Sanitisers Sanitisers need to be mounted</p> <p>Training</p>		<p>26/9/20</p> <p>26/9/20</p> <p>2/10/20</p> <p>15/9/20</p>	<p>15/9/20</p>

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Increased frequency of handwashing/sanitiser to maintain personal hygiene.  <ul style="list-style-type: none"> • Contents of risk assessment shared with staff and contractors <p><i>Please add any additional specific arrangements applicable to your building.</i></p> <p>Course Attendees</p> <ul style="list-style-type: none"> • Course will be informed of specific measures in place within the Alibon building by letter before attendance. • Course Attendees are subject to extra COVID measures by Training providers. <ul style="list-style-type: none"> ○ First Aid: Wearing of face coverings where possible, taking of temperature before entering training room (and denying entry where applicable), candidates to bring their own refreshments. 	<p>Process to be designed to wipe down surface between course breaks</p> <p>Staff</p> <p>Staff to be made aware that they are responsible for wiping down their workstations</p>		26/9/20	
4. Reoccupation of operational buildings - areas which have not been in use / full use during lockdown period	Staff, contractors, service users, visitors, public, Due to some or all parts of the premises not being used for a period of time, inspection and testing of building services and safety devices to ensure they are in full working order is required.	 <ul style="list-style-type: none"> • Visual inspection of the work area that you are going to occupy/ responsible for premises to identify and remedy health and safety hazards, particularly in any areas that may have been non-occupied due to lockdown • Building services maintained in accordance with the LBBB 'Duty Holder Support Pack' including: • Maintenance checks of plant and equipment undertaken – including kitchen equipment. • Fire alarms and systems checked and operational including: <ul style="list-style-type: none"> ○ Fire alarm panel status green ○ Fire call points operational ○ Emergency lighting operational ○ Firefighting measures e.g. fire extinguishers, blankets all present and maintained 	<p>New building pre-occupation checklist to be drafted with all the checks required to plant & systems which are currently out of use/ received little use – e.g. Tea Boilers, MFDs, Hot Water Dispenser.</p> <p>Visual inspection/ walkthrough to be</p>		26/9/20	26/9/20

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Gas systems maintained • Water flushing of little used outlets undertaken to minimise risk of legionella and checks/maintenance undertaken/up to date on hot and cold-water systems (and pools) in accordance with Legionella water risk assessment. Every tap (hot and cold) should be run for minimum of 2 minutes in all areas of the premises which have not been used during lockdown period • Electrical equipment and systems maintained • Electrical gate systems maintained • Lifts and lifting equipment/hoists maintained • Ventilation / air conditioning / extraction systems maintained if using a central ventilation system that removes and circulates airs to different rooms, it is recommended that you turn of re-circulation and use a fresh air supply • Asbestos management arrangements in place • Boiler room plant inspected / maintained • Identify and remedy possible vermin infestations <p>Confirmation that safe arrangement are in place with any shared landlord/ Duty Holders of a premises must be confirmed.</p> <p><i>Please add any additional specific arrangements applicable to your service / work setting.</i></p> <p>Cleaning of premises occurs daily (weekdays) by BDMS before centre is opened.</p>	arranged and performed			
5. On entry to buildings	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	 <p>Measures taken to control COVID-19 are accessible to all staff and visitors including people with disabilities. E.g. hand washing / sanitiser stations are accessible to wheelchair users, notices are read to visually impaired people where identified or upon request.</p> <p>Use simple, clear messaging to explain guidelines using images and clear language, with consideration of groups for which</p>	Posters and sanitisers to be put up (see above)		26/9/20	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<p>English may not be their first language and those with protected characteristics such as visual impairments.</p> <p>Notices for display can be found under 'Resources'. https://lbbd.sharepoint.com/sites/IntTp/HR/Pages/Risk-Assessment---COVID-19-.aspx</p> <p>(Managers are responsible for ensuring safety information is explained and understood to their relevant team members where a need is identified)</p>  <ul style="list-style-type: none"> • Notices displayed advising visitors should not enter the building if they have symptoms of COVID-19 • Informing visitors that they should be prepared to remove face coverings if asked to do so by police officers and staff for the purposes of identification. • Pictorial social distancing notices displayed at all entry points to the building (including disabled access entry points) • 2-meter demarcation on building entry approaches • Staggered start times • Controlled entry to building / Limiting the number of visitors at any one time. • Supervising of entry to building to follow social distancing guidelines • Established host responsibilities relating to COVID-19 and providing any necessary training for people who act as hosts for visitors. • Revised entry and exit routes for staff, visitors and contractors to minimise contact with other people. • Provision of additional parking or facilities such as bike racks to help people walk, run, or cycle to work where possible. 	<p>Sign to allow only two people at a time into reception area. Social distancing markers outside the building.</p>		<p>26/9/20</p>	

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Hand sanitiser stations located at entry points to the building • Hand washing / sanitisation stations (ideally soap and water to minimise possible adverse dermatological effects) at point of entry to building. All people entering the building must sanitise hands prior to entry. (20 seconds minimum recommended) • Enhance cleaning frequency of regular touched items including handles on doors, rails, dispensers and water coolers • Maintaining use of security access devices, such as keypads or passes, and adjusting processes at entry/exit points to reduce risk of transmission. For example, cleaning pass readers regularly and asking staff to hold their passes next to pass readers rather than touching them. <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
6. Reception areas	<p>Staff, contractors, service users, visitors, public,</p> <p>(Risk - As set out in section 1)</p>	 <ul style="list-style-type: none"> • Telephone appointments/emails to office where possible to minimise face to face contact • Screens fitted to reception area desks • Workstation set up to allow social distancing of staff • Notices displayed advising visitors should not enter the building if they have symptoms of COVID-19 • Demarcation to maintain safe distancing 2 metre floor markings, including for possible queues • spacing of desks, • Activity / interactions with customers kept as short as possible • Pictorial social distancing notices displayed at all entry points to the building (including disabled access entry points) • 2-meter demarcation on building entry approaches • One-way flow system at entry and exit points. • Controlled / staggered entry to building 	<p>Booking system for 3 available desks. These are to be marked (A,B,C). These are not to be used by staff on visits. In addition, if no training on, 4 bookable desks in training room as a short term visit option (only to be used once per day).</p> <p>Centre will only be opened term time Tues to Thursday.</p>			15/9/20

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Additional entrances available to minimise congestion at peak times <ul style="list-style-type: none"> • Seating areas revised to ensure 2m social distancing • Supervising of entry to building to follow social distancing guidelines  <ul style="list-style-type: none"> • Provision of hand washing stations (ideally soap and water at point of entry to building. If not practicable hand sanitiser to be used (next bullet point) • Provision of hand sanitiser stations located at entry / exit points to the building • Notice displayed to sanitise hands • Increased natural ventilation where practicable • Enhance cleaning frequency of regularly touched items including handles on doors, rails, dispensers, and water coolers, IT equipment, pens, telephones • Sharing of items discouraged for example avoiding sharing pens, documents, and other objects. • Shared items to be wiped/sanitised prior to next use • Catch it, bin it, kill it posters displayed • Staff provided with guidance on hygiene protocols to eliminate cross-infection risks. • Staff to use PPE (gloves) when handling deliveries. • Items to be sanitised via antibacterial wipes/spray prior to delivery to staff • Staff cleaning would be in line with: • Working-safely-during-covid-19/offices-and-contact-centres offices • Provision of closed top bins available for disposal of face coverings and other PPE which may be worn. Face coverings are not recyclable at present and should not be placed in recycle bins. Further guidance can be found here • https://www.gov.uk/guidance/coronavirus-covid-19-disposing-of-waste 	<p>Info pack for staff to be created.</p> <p>Seating in reception to be taped to stop people using.</p> <p>Existing bins with lids to be used for disposal of face masks. BDMS cleaner to be made aware.</p>		<p>15/9</p> <p>26/9</p> <p>26/9</p>	<p>15/09/20</p>

21. Someone becomes unwell	Staff, contractors, service users, visitors, public, (Risk - As set out in section 1)	 <p>Protocol developed in line with Government Guidance to include:</p> <ul style="list-style-type: none"> • First-aid procedure and arrangements in place. • If anyone becomes unwell with a new, continuous cough or a high temperature loss of taste / smell across the service, they must be sent home and advised to follow the COVID-19: guidance for households with possible coronavirus infection guidance. • If a person is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people. • If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else. • In an emergency, call 999 if they are seriously ill or injured or their life is at risk. Do not visit the GP, pharmacy, urgent care centre or a hospital. • If a member of staff has helped someone who was unwell with a new, continuous cough, a high temperature, loss of taste or smell they do not need to go home unless they develop symptoms themselves (and in which case, a test is available) or the person subsequently tests positive (Close contact generally refers to being within 2 metres for more than 15 minutes). • If you have been in close contact with someone who is being tested for COVID-19, but they do not yet have a test result: Current advice states that at this stage, you do not need to self-isolate. You should take extra care in practising social distancing and good hand and respiratory hygiene. Contacts of people who have tested positive for COVID-19 infection who need to self-isolate will be notified accordingly by the 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<p>NHS Test and Trace service. If you have not been notified, this means you do not need to self-isolate.</p> <ul style="list-style-type: none"> • They should wash their hands thoroughly for 20 seconds after any contact with someone who is unwell. Cleaning the affected area with normal household disinfectant after someone with symptoms has left will reduce the risk of passing the infection on to other people. See COVID-19: cleaning of non-healthcare settings guidance • Staff cleaning would be in line with: https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/offices-and-contact-centres#offices-5-2 <p>To dispose of waste from people with symptoms of coronavirus, such as disposable cleaning cloths, tissues, and PPE:</p> <ul style="list-style-type: none"> • put it in a plastic bin bag and tie it when full • place the plastic bin bag in a second bin bag and tie it • put it in a suitable and secure place marked for storage for 72 hours • Waste to be stored safely and securely. <p><i>Please add any additional specific arrangements applicable to your building.</i></p>				
22. Fire drills / Emergency situations	<p>Staff, contractors, visitors, customers, public.</p> <p>Smoke inhalation, exposure to heat</p>	<p></p> <ul style="list-style-type: none"> • Upon discovery of an actual fire or other emergency, immediate evacuation of the building in a safe and controlled manner will be essential. Evacuation is the priority, in this circumstance social distancing may need to be relaxed to enable quicker evacuation. • Fire risk assessment and Emergency Evacuation Plans revised for site to take into account <i>possible</i> COVID-19 restrictions and areas which may not be in use and changes of use to the building. • Personal Emergency Evacuation Plans (PEEPS) in place and revised where necessary 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		 <ul style="list-style-type: none"> • Adequate numbers of trained staff to safely evacuate all personnel on the premises • Demarcation of safe distancing in place at assembly points in line with social distancing guidelines (2 meters) where reasonably practicable (planned drills only). If not practicable nominated person to monitor social distancing. • Fire drill arrangements to be confirmed with landlord/ duty holder/ occupant (where premises are shared) • Ensure emergency evacuation routes out of the building are not compromised including fire doors and final exit doors.  <p>On return to building, occupants to sanitise hands/follow hygiene protocols on re-entry</p> <p><i>Please add any additional specific arrangements applicable to your service / work setting.</i></p> <p>When course is happening Training Officer (trained fire warden) will be on site.</p> <p>Other times there should be no more than 4 people on site.</p>

		<ul style="list-style-type: none"> Building Cleaning (BDMS) have their own COSHH; 				
25. Office/on site Dealing with / clearing up with Body Fluids	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1)	 <ul style="list-style-type: none"> Body Fluids protocol updated to include COVID-19 risks to include: <ul style="list-style-type: none"> Where clearing up of body fluids is required, the staff member must follow all infection control measures including covering wounds prior to glove use Full appropriate PPE must be worn, this will include disposable gloves, disposable apron and fluid resistant surgical facemask and eye protection or face shield PPE and waste disposal protocols to be followed (double bag waste) Handwashing protocols to be followed Protocol in place to respond to emergency cleaning requirements and increased cleaning requests <p><i>Please add any additional specific arrangements applicable to your building.</i></p> <ul style="list-style-type: none"> Additional PPE is available at First Aid Kit Points for dealing with and clearing up body fluids 				
26. Behaviour of staff Behaviour of the public	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1) Acts of violence towards Staff include but are not limited to; Verbal aggression, Physical aggression, Threatening and intimidating behaviour.	 <ul style="list-style-type: none"> Staff code of conduct applies in these times of Covid-19 and staff are expected to maintain social distancing and hygiene protocols at all times Visitors to buildings are expected to follow social distancing and hygiene protocols. If staff feel threatened or intimidated, they must follow their usual V&A procedures and retreat to a secure area if required. The mantra 'If in doubt, get out' should be used when assessing situations 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<i>Please add any additional specific arrangements applicable to your service / work setting.</i>				
27. Business Continuity	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1) Closure of premises, non-provision of service	 <ul style="list-style-type: none"> Business Continuity Plan reviewed to include COVID-19 related risks <i>Please add any additional specific arrangements applicable to your building.</i>	To be reviewed		26/9	
28. Multi Use / Hired premises N/A	Staff, contractors, visitors, customers, public. (Risk - as set out in section 1)	 <p>Where buildings are shared with other businesses or hired on a sessional basis, the organisation must demonstrate they are operating as COVID secure. This would typically be via a COVID-19 Risk assessment for the activity.</p>				
TRAINING provision (Company HSHTC Ltd providing training to childcare providers)	Staff, Trainers, Customers	<p>Outside training company (HSHTC Ltd) provide training to cover the welfare requirements of the EYFS to childcare settings. This is usually done from the training room at Alibon Annexe. This course is usually two days face to face training but has been re-organised for only one day face to face training to reduce the risk of COVID transmission. In addition to COVID measures put in place to cover both the Early Years & Childcare service and the building Risk Assessment at Alibon HSHTC will also require the following during their training sessions:</p> <ul style="list-style-type: none"> Delegates must e-mail their completed declaration of fitness and terms of attendance form to HSHTC four working days before the course attendance date. Delegate's temperature will be taken by the trainers before they enter the training room. This is a HSHTC policy. If a delegate has a temperature above 37.8 degrees centigrade, they will be refused entry onto the course. The trainer will obtain verbal confirmation the contents of declaration of fitness are still valid. 				

What are the hazards?	Who may be harmed and how? (risk)	What are you already doing?	What further action is necessary?	Actions by whom?	Action by when?	Date Completed
		<ul style="list-style-type: none"> • Contact surfaces cleaned regularly during the day (HSHTC) with doors and windows in the training room left open to reduce hand contact. • Where a table is required, each candidate will have their own. • Each candidate will have their own manakin(s) • Lungs on each manakin will be changed at lunchtime and at the end of the day. These will be bagged in plastic bags and sealed. The bags will then be placed in external bin. • Toilets will be run as “one out one in”. HSHTC to support this during training. • Room will be set up to support 2 metre distance requirements with the exception where practical assessment requires it e.g. bandaging. • Sanitising gel at the entrance to training room (supplied by LBBB) and on each table (HSHTC to supply) • Sanitising wipes, protective gloves and tissues (supplied by HSHTC) on each table. • HSHTC insist candidates will have to wear face coverings during training- except where practical assessment prevents it. • During the course HSHTC’s trainers will re-enforce protocols for coughing, sneezing, touching (eyes, nose and mouth) and hand- washing. • During the lunch break the trainer’s assistant will: <ul style="list-style-type: none"> ○ Follow protocols to clean and sanitise manakins ○ Dispose of all lungs and tissues into plastic bag and seal ○ Sanitise contact surfaces in training room • At the end of the course the trainer’s assistant will: <ul style="list-style-type: none"> ○ break down, clean and sanitise all manakins ○ Dispose of all lungs and tissues into plastic bag and seal ○ Sanitise contact surfaces in the training room <p>The Health declaration includes questions:</p>

Other?		<i>Please add any additional specific arrangements applicable to your building.</i>				

It is important you discuss your assessment and proposed action with employees and their representatives. A risk assessment is only effective if you and your employees act on it. You must follow through with any actions required and review it on a regular basis. You should review your risk assessment if you think it may no longer be valid e.g. following an accident/incident, or if there are significant changes to the hazards in your workplace, such as new equipment or work activities. You should consider, at a minimum, an annual review of your assessment. Risk assessment guidance is available for further information and advice on carrying out a risk assessment

Appendix 1

PPE Risk Assessment Template – PPE Request

Once the risk assessment has been completed in consultation with the Corporate Health and Safety team, your employees, Trade Union Partners and has been signed off by the Workforce Governance Group or CEX/DCEX as being COVID-19 secure, please fill out the below to summarise the service's need for PPE outlined in the assessment. Once completed, and agreed, please send to Rhys.Clyne@lbbd.gov.uk and Will.Donovan@lbbd.gov.uk. If you have any identified need for PPE beyond the items outlined below please notify Rhys and Will as soon as possible, as it may be necessary to establish a new supply chain for additional items which have not been routinely stocked.

Please state all items as numbers of items required, not numbers of boxes as box sizes for masks, gloves and aprons can vary.

Please note that this form should cover **only** PPE directly relating to preventing the spread of coronavirus. The service's usual PPE requirements (ie: items which were standard before March 2020) should continue to be ordered through the usual supply routes as per the Council's procurement contracts. If suppliers are not able to fulfil the needs of the service please contact Edna.Amolo@lbbd.gov.uk from Procurement who will follow up with contracted suppliers.

Please indicate when first month's supply PPE is required by here:

Regular, monthly PPE need

	Surgical masks	FFP3 masks	Pairs of gloves				Disposable suits	Disposable aprons	Full face shields	Goggles	Hand sanitiser (bottles)		Anti-bac wipes packs
			S	M	L	XL					100ml	500ml	
Number of units													

Please note that FFP3 masks are only required in very specific applications and may not provide adequate protection unless used alongside additional equipment such as a full-face shields or safety goggles.

Fixed PPE need for your workplace

Check with the Building Manager/ Duty Holder for any building related requirements you may have, such as screens, signs, tape and fixed sanitiser may have been ordered/covered.
